

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **containerized Hugging Face models** using **FastAPI** as APIs on a **managed Kubernetes service**, ensuring **GPU compatibility** and optimizing memory provisioning for large-scale models.
- Managed production environments for a financial-services operations dashboard, implementing **transaction monitoring** and **operational alerting** for failed payment messages, sustaining 99.9% processing uptime.
- Automated data pipeline tasks and scheduled reporting using **Python scripting**, processing over **1TB of data** weekly for analytical insights.
- Refactored **Java Spring Boot** microservices, developing new **REST APIs** and resolving critical bugs, improving system response times by **15%**.
- Integrated and supported enterprise business systems, including ERP modules, executing **change-control management** for system configurations and coordinating **User Acceptance Testing (UAT)**.
- Designed and implemented **Power BI dashboards** with interactive visualizations and **DAX measures**, translating complex data into actionable business intelligence for stakeholders, leading to a **20% improvement** in operational visibility.

SKILLS

MLOps & Deployment – Hugging Face, FastAPI, Kubernetes, Docker, CUDA, NVIDIA Drivers, EC2 GPU Instances, CI/CD, Jenkins.

Programming Languages – Python, Java, SQL, R.

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Linux.

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Modelling, DAX, Power Query.

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn.

Tools & Methodologies – Jira, Confluence, Git, Agile, Scrum, Splunk, Dynatrace.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

GPU-Accelerated Image Analysis Pipeline

- Engineered a **containerized API** for deploying computer vision models using **FastAPI** and **Docker**, specifically targeting **AWS EC2 GPU instances**.
- Integrated **CUDA and NVIDIA drivers** for efficient model execution, managing dependencies and ensuring seamless operation for large image datasets.

- Developed automated testing routines for the pipeline, achieving **90% unit test coverage** and validating GPU resource utilization.

Real-time Transaction Monitoring Dashboard

- Developed a **Java Spring Boot** application to process and monitor financial transaction messages, integrating with a **PostgreSQL** database.
- Implemented operational alerting for failed transactions, reducing manual intervention by **30%** and ensuring adherence to strict SLAs.
- Designed and built interactive **Power BI dashboards** to visualize transaction flows, reconciliation status, and key performance indicators for business analysts.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
