PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and appraised the statistical methodologies and sample size calculations for **pre-marketing applications**, authoring detailed assessment reports for regulatory submission.
- Contributed to **cross-functional teams** in the assessment of clinical trial applications, ensuring alignment on statistical design and analysis plans.
- Provided **statistical expertise** to internal stakeholders and national scientific committees on drug development processes and the interpretation of clinical trial results.
- Developed and maintained **Python scripts** for data extraction, transformation, and loading (ETL) from diverse sources to support operational reporting and analysis, reducing manual effort by **30%**.
- Designed and implemented interactive **Power BI dashboards** to visualize key performance indicators for financial services operations, enhancing stakeholder understanding of transaction monitoring trends.
- Managed **incident response** for critical enterprise applications, adhering to strict SLAs and conducting root cause analysis to prevent recurrence, maintaining **99.9%** system uptime.

SKILLS

Statistical Analysis – Statistical Methods, Sample Size Calculation, Sensitivity Analyses, Imputation Methods, Statistical Design, Clinical Trial Design, Data Analysis, Hypothesis Testing, Regression Analysis, Time-Series Analysis, A/B Testing

Biostatistics & Life Sciences – Biostatistics, Medical Statistics, Drug Development Process, Clinical Trial Process, Regulatory Applications, Biomedical Research, Genomics, Pharmacology, Pharmacy, Healthcare Discipline

Data Visualization & BI Tools – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Operational Reporting

Programming & Scripting – Python, R, SQL (PostgreSQL, MySQL, Oracle), Java, Spring Boot, REST APIs, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

Professional Skills – Analytical Thinking, Critical Appraisal, Report Writing, Communication, Negotiation, Decision Making, Organisational Skills, Attention to Detail, Knowledge Sharing, Teamwork, Change Management, Agile/Scrum

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Clinical Trial Data Analysis Platform

- Developed a **Python-based data pipeline** to ingest and process clinical trial data from multiple sources, enabling standardized analysis for regulatory submissions.
- Implemented statistical models using **R** and **scikit-learn** to analyze trial outcomes, including survival analysis and efficacy metrics, presenting findings in comprehensive reports.
- Designed **interactive dashboards in Tableau** to visualize study progress and key statistical endpoints, facilitating communication with multidisciplinary research teams.

Financial Operations Monitoring Dashboard

- Engineered a **Java Spring Boot service** to aggregate transaction data from a financial-services client's messaging queues, supporting real-time monitoring.
- Created **SQL queries** against PostgreSQL to extract and validate transaction flows, identifying reconciliation discrepancies and automating error reporting.
- Built a **Power BI dashboard** with custom DAX measures to track payment processing status, alert on failures, and provide audit trails for operational teams, improving issue resolution time by **15%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
