PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed incident response and SLA adherence for production enterprise applications, resolving P1/P2 incidents within target timeframes and reducing critical downtime by **15%**.
- Developed Python scripts to automate ETL processes and scheduled reporting, improving data pipeline efficiency by **20%** and reducing manual effort.
- Contributed to the development of a financial-services operations dashboard by implementing Java Spring Boot features and REST APIs for transaction monitoring.
- Assisted in maintaining and enhancing CI/CD pipelines using **Jenkins** and **Git**, enabling faster and more reliable code deployments.
- Supported the administration of Linux-based production systems, analyzing logs and executing shell scripts for system health checks and maintenance tasks.
- Collaborated with cross-functional teams to support enterprise business systems, coordinating change-control management and UAT for system configuration updates.

SKILLS

Cloud Infrastructure – AWS, EC2, S3, Lambda, CloudWatch.

Containerisation – Docker, Kubernetes.

CI/CD & Version Control – Jenkins, Git.

Scripting & Automation – Python, PowerShell, Bash.

Programming Languages – Java, Spring Boot, .NET.

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, Power Query.

Observability & Monitoring – Splunk, Dynatrace, Prometheus, Grafana, Azure Monitor.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Payments Operations Dashboard Enhancement

- Implemented new Java Spring Boot microservices to process and validate inbound transaction messages for a financial-services dashboard, improving data integrity.
- Developed Python scripts to automate the generation of daily reconciliation reports, reducing processing time by **30%** and enhancing accuracy.

- Configured **Splunk** alerts for critical transaction failures, enabling proactive incident response and reducing Mean Time To Resolution (MTTR) by **25%**.

Automated Infrastructure Deployment Pipeline

- Built and maintained CI/CD pipelines using **Jenkins** for automated testing and deployment of containerized applications on **AWS**.
- Authored **Terraform** scripts to provision and manage cloud infrastructure resources (EC2, RDS, S3), ensuring consistency and reducing manual configuration errors.
- Integrated **Docker** containerisation into the deployment workflow, standardizing application environments and streamlining the release process.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
