PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** microservices, implementing **REST APIs** for data access and business logic, contributing to a **15%** reduction in request latency for core financial operations.
- Engineered automated **Python** scripts for data ingestion and transformation, processing over **1TB** of operational data daily into a data warehouse for downstream analytics and reporting.
- Managed production incidents for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace**, and resolving critical issues within defined SLAs to ensure **99.95%** uptime.
- Designed and implemented interactive **Power BI** dashboards visualizing key performance indicators for business stakeholders, leading to a **20%** improvement in identifying operational bottlenecks.
- Supported enterprise systems, including ERP modules, by coordinating system configuration updates and UAT cycles, ensuring seamless integration and minimal disruption to business operations.
- Implemented CI/CD pipelines using **Jenkins** and **Git** for automated builds, testing, and deployments, reducing manual deployment time by **50%** and improving code quality through peer reviews.

SKILLS

Backend Development – TypeScript, Node.js, NestJS, Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Frontend Development – React, Angular, HTML, CSS, JavaScript

Data Engineering & Analytics – SQL, PostgreSQL, MySQL, Oracle, Databricks, Power BI, DAX, Power Query, Tableau, R, pandas, NumPy, scikit-learn, data modelling, data warehousing, ETL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Observability & Support – Splunk, Dynatrace, Linux, Shell Scripting, incident response, change management

AI & Machine Learning – scikit-learn, Machine Learning Fundamentals, AI-enabled development practices

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Transaction Monitoring Dashboard

- Developed a **Java Spring Boot** application to process and monitor real-time financial transaction flows, integrating with multiple messaging queues.
- Built a **PostgreSQL** data layer to store transaction details and status, supporting complex SQL queries for reconciliation and audit trail generation.

- Created interactive visualizations in **Power BI** to display transaction status, failure rates, and processing times, enabling operations teams to quickly identify and resolve issues.

Automated Data Pipeline for Risk Analytics

- Designed and implemented an end-to-end data pipeline using **Python** and **AWS Lambda** to ingest, clean, and transform large volumes of insurance risk data.
- Stored curated data in a **Databricks** lakehouse environment, enabling efficient querying and analysis for actuarial computations.
- Developed **NestJS** backend services to expose processed data via **REST APIs**, supporting the integration of risk analytics models and client-facing applications.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
