+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and implemented **AI platform architecture** integration patterns, contributing to high-level diagrams that guide enterprise AI adoption across a global technology landscape.
- Researched and evaluated emerging **AI technologies** including LLMs and agentic frameworks, recommending candidates for proof-of-concept initiatives to the AI CoE.
- Collaborated with software engineers on focused **Proof-of-Concepts**, providing architectural perspectives on integrating new AI capabilities with existing enterprise systems.
- Authored detailed **architecture documentation** suitable for both human engineers and AI coding agents, ensuring clarity and consistency in AI adoption guidelines.
- Contributed to the design of reference architectures and technology radar documents, guiding Marsh's strategic adoption of AI capabilities at scale.
- Presented technical findings and architectural recommendations at Marsh's **Architecture Council** and Dev Council forums, influencing technical direction for AI initiatives.

SKILLS

AI/ML Technologies – LLMs, Embeddings, RAG, Agent Frameworks, AI Coding Platforms, GitHub Copilot, Claude Code, Cursor

System Design & Architecture – Enterprise Architecture, Integration Patterns, Reference Architectures, Technology Radar

Cloud Platforms – AWS, Azure, GCP

Programming Languages – Python, Java, TypeScript, Node.js, NestJS, Rust

Databases & Data Management – PostgreSQL, MySQL, Oracle, Data Warehousing

Development & Operations – Docker, Kubernetes, CI/CD, Jenkins, Git

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise AI Integration Framework

- Developed a reference architecture for integrating emerging **AI capabilities** into existing enterprise systems, focusing on modularity and scalability.
- Designed API gateway patterns and security protocols for secure interaction between AI services and business applications, ensuring compliance with enterprise standards.

- Authored comprehensive technical documentation, including sequence diagrams and data flow schemas, for consumption by engineering teams and **AI agents**.

LLM-Powered Knowledge Management System

- Architected a system to ingest and index large volumes of internal documentation using **embeddings** for enhanced retrieval via LLM queries.
- Implemented a **Retrieval-Augmented Generation (RAG)** pipeline to provide contextually relevant answers, reducing information lookup time by **40%** for internal users.
- Integrated with **GitHub Copilot** for code generation assistance during the development of the system's core components and API integrations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
