PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Power BI dashboards** integrating data from sales, finance, and operations systems, enabling stakeholders to track key performance indicators and make data-driven decisions, resulting in a **15% improvement** in report generation efficiency.
- Automated data collection and aggregation processes for business intelligence reporting using **Python scripts**, reducing manual effort by **40%** and ensuring data consistency across multiple MB systems.
- Managed and maintained a centralized database for BI reporting, developing **SQL queries** and data models to support complex analytical requests from the Head of PMO and cross-functional teams.
- Collaborated with Research and Development and Operations departments to systematize the identification and integration of key business data, establishing data pipelines that improved data accessibility for strategic analysis by **20%**.
- Developed and maintained a PMO repository of project standards, forecasts, and change records, ensuring adherence to established processes and facilitating clear communication of project status and risks.
- Created interactive **Tableau visualizations** to communicate complex findings from financial and operational data, supporting strategic decision-making for the Strategic Bid team and Program Management Office.

SKILLS

Business Intelligence Tools – Power BI, Tableau, DAX, Power Query

Programming & Scripting – Python, R, SQL

Data Management – Database Management, Data Warehousing, Data Modelling, ETL

Reporting & Analysis – Data Analysis, Business Insights, KPI Reporting, Statistical Analysis, Exploratory Data Analysis

Collaboration & Communication – Cross-functional Collaboration, Verbal Communication, Written Reports, Stakeholder Communication

Project Management Support – Agile/Scrum, Change Management, Process Maintenance, Repository Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Financial Operations Performance Dashboard

- Developed a comprehensive **Power BI dashboard** to monitor key financial operations metrics, including transaction volumes, processing times, and reconciliation status.

- Automated data ingestion from multiple sources using **Python and SQL**, reducing manual data preparation time by **30%** and ensuring timely report generation.
- Implemented interactive visualizations and drill-down capabilities, allowing operations managers to quickly identify and address bottlenecks in payment processing workflows.

Enterprise Systems Data Aggregation Platform

- Built a data aggregation platform using **Python and PostgreSQL** to consolidate data from disparate enterprise systems, including ERP modules and operational databases.
- Designed and implemented ETL processes to clean, transform, and load data into a centralized data warehouse, improving data quality for downstream analytics by **25%**.
- Created standardized reports and ad-hoc query capabilities to support business analysts in understanding system performance and user activity across interconnected platforms.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
