+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Designed and implemented new features for the **Windows Update stack** client code, enhancing discovery and installation reliability for **operating system updates**.
- Collaborated with cross-functional teams to build features enabling efficient component updates, integrating **ML/AI models** and security enhancements for faster market delivery.
- Developed and tested new features based on internal and external customer requirements within a quarterly planning cycle, improving internal processes and tools for faster code deployment to **validation rings**.
- Addressed critical **security vulnerabilities** by architecting resilient components for the update platform, maintaining high security standards in a rapidly evolving landscape.
- Monitored monthly retail releases for **Windows**, diagnosing and mitigating issues expeditiously to ensure seamless customer experiences.
- Mentored junior developers and interns on the team, contributing to knowledge sharing and fostering a collaborative development environment.

## SKILLS

**Languages** – Java, Python, C++, C#, JavaScript

**Cloud & OS** – AWS (EC2, S3, Lambda, CloudWatch), Linux

**Development Tools** – Git, Jenkins, Docker, Jira, Confluence

**Databases** – PostgreSQL, MySQL, Oracle

**Frameworks & Libraries** – Spring Boot, pandas, NumPy, scikit-learn

**Methodologies** – Agile, Scrum, CI/CD

**AI & ML** – ML/AI Models, Generative AI

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

### **Enterprise Application Reliability Enhancement**

- Improved the stability and performance of core enterprise applications by implementing proactive monitoring and incident response strategies using **Splunk** and **Dynatrace**.
- Automated routine system checks and reporting tasks using **Python** scripts, reducing manual effort by **30%** and ensuring timely delivery of operational insights.

- Managed change control processes for system configuration updates, coordinating UAT and providing post-go-live support across interconnected **Java Spring Boot** services.

#### **Customer Insights Dashboard for Product Analytics**

- Developed interactive dashboards in **Power BI** to visualize key performance indicators and customer usage patterns, enabling data-driven product decisions.
- Engineered data pipelines using **Power Query** and complex **DAX** measures to transform raw data into actionable insights for business stakeholders.
- Designed and implemented data models in **Power BI**, supporting ad-hoc analysis and reporting for a user base of over 50 business analysts.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
