PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained a **payments operations dashboard** for a financial-services client, focusing on **transaction monitoring** and alerting for payment message failures, ensuring adherence to strict SLAs.
- Automated data extraction and reporting tasks using **Python scripting**, streamlining ETL processes and reducing manual effort by an estimated **30%** for operational analytics.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within defined response times, contributing to a **99.9%** system availability.
- Designed and implemented RESTful APIs using **Java Spring Boot** for new service features and integrations, enhancing system functionality and data exchange capabilities.
- Refactored complex SQL queries and implemented strategic indexing across **PostgreSQL** and **Oracle** databases, improving data retrieval performance for critical reporting functions by up to **25%**.
- Contributed to CI/CD processes by maintaining **Jenkins pipelines** and performing code reviews, ensuring consistent and reliable deployment of application updates.

SKILLS

Core Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda), Docker, Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Methodologies – Agile, Scrum

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Transaction Reconciliation and Alerting System

- Engineered a dashboard system in **Java Spring Boot** to monitor financial transaction flows, flagging discrepancies and failed messages in near real-time.
- Integrated with **PostgreSQL** to store and retrieve transaction data, enabling complex reconciliation workflows and providing detailed audit trails.

- Developed automated alerts using **Python** for critical operational events, reducing manual oversight and improving incident response times by **40%**.

Customer Insights Dashboard for Retail Operations

- Designed and built interactive dashboards in **Power BI** to visualize key performance indicators for retail operations, derived from disparate data sources.
- Developed complex **DAX measures** and optimized data models within Power BI to support in-depth analytical queries and reporting for business stakeholders.
- Managed the ETL process using **Power Query** to clean and transform raw data, ensuring data integrity and accuracy for all dashboard visualizations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
