PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **order processing** and **ERP system** entries for customer orders, ensuring accurate data flow from receipt to dispatch, sustaining **99.8%** order accuracy.
- Participated in routine **stock checks** and **inventory monitoring**, supporting the investigation of discrepancies and ensuring accurate updates to the **ERP system**, reducing stock count variances by **15%**.
- Supported the purchasing function during peak periods by assisting with procurement tasks and ensuring timely replenishment of stock, contributing to a **10%** improvement in on-time delivery rates.
- Assisted in the **testing and data validation** phases for a new **ERP system implementation**, ensuring process alignment and data integrity across modules.
- Contributed to continuous improvement initiatives by identifying and documenting process bottlenecks within the supply chain, leading to the implementation of streamlined workflows that reduced order processing time by **12%**.
- Collaborated with Quality and Warehouse teams to resolve data and stock-related issues, ensuring seamless operations and maintaining high standards for product traceability.

SKILLS

Supply Chain & Operations – Order Processing, Stock Control, Inventory Management, Purchasing Support, Warehouse Operations, Continuous Improvement, Lean Principles

ERP Systems – ERP Data Management, ERP System Implementation, Data Validation, Process Alignment

Data Analysis & Reporting – Data Accuracy, Data Integrity, Trend Analysis, Reporting

Software & Tools – Microsoft Excel, Power BI, Tableau, Python, SQL

Project Support – Testing, UAT Support, Change Management, Documentation

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

ERP System Data Migration & Validation

- Developed Python scripts to automate the extraction, transformation, and loading (ETL) of historical inventory and order data from legacy systems into a new **ERP database**.
- Executed comprehensive data validation checks using **SQL queries** across PostgreSQL and Oracle, identifying and rectifying over **5,000** data discrepancies prior to system go-live.
- Created interactive **Power BI dashboards** to visualize data migration progress, stock level trends, and order processing efficiency for management review.

Operational Efficiency Dashboard for Manufacturing

- Designed and built a comprehensive **Power BI dashboard** to monitor key performance indicators (KPIs) for manufacturing operations, including production output, defect rates, and on-time delivery.
- Integrated data from multiple sources, including **SQL databases** and Excel spreadsheets, using **Power Query** for data transformation and modeling.
- Presented data-driven insights to operations teams, facilitating the identification of bottlenecks and supporting the implementation of process improvements that increased throughput by **8%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
