+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Analyzed and mapped complex business processes for a financial services client, identifying **operational control gaps** and documenting procedural discrepancies against desired future states.
- Developed and executed detailed process improvement recommendations, collaborating with cross-functional teams to implement changes and monitor their impact on client-facing operations, ensuring adherence to **industry regulations**.
- Conducted in-depth risk and control assessments, challenging existing frameworks to identify more effective **compliance controls** and strengthen internal control mechanisms across the payments operations dashboard.
- Managed change control processes for enterprise business systems, coordinating User Acceptance Testing (UAT) and providing post-go-live support for critical **ERP integrations** and interconnected platforms.
- Designed and documented **REST API integrations** and data flow mechanisms between PostgreSQL and Oracle databases to support seamless data exchange for business intelligence reporting.
- Published interactive **Power BI dashboards** and reports for business stakeholders, translating complex data models and DAX measures into actionable insights for operational decision-making.

SKILLS

Process Analysis & Controls – Process Mapping, Operational Procedures, Control Frameworks, Risk Assessment, Compliance Controls, Gap Analysis, Change Management, Target Operating Models

Financial Services Operations – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Business Process Documentation, Stakeholder Engagement, Regulatory Compliance

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Exploratory Data Analysis, Visualisation

Software Engineering – Java Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle, Docker, Linux, Git, Jenkins

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Splunk, Dynatrace, Incident Response, SLA Management, Production Support

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Payments Transaction Monitoring Dashboard

- Developed a **Java Spring Boot**-based microservice to ingest and process real-time transaction messages from a financial services client.

- Implemented **SQL queries** against a PostgreSQL database to track transaction statuses, identify failures, and generate alerts for reconciliation workflows, achieving 99.8% message processing accuracy.
- Designed and deployed a **Splunk dashboard** for operations teams to monitor transaction flows, troubleshoot P1/P2 incidents, and ensure adherence to strict operational SLAs.

ERP Systems Integration & Reporting Platform

- Engineered **Python scripts** to automate data extraction and transformation from legacy ERP systems into a centralized data warehouse for enhanced business analysis.
- Built **Power BI reports** to visualize key performance indicators (KPIs) derived from integrated ERP and operational data, enabling stakeholders to track business metrics and identify areas for efficiency improvements.
- Managed **change control procedures** for schema updates and data validation processes, ensuring data integrity and consistency across interconnected enterprise systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
