

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed new features for core **MongoDB products** using **Java** and **Spring Boot**, enhancing system stability and performance by **15%**.
- Designed and implemented **automated Python scripts** to streamline data ingestion and processing, reducing manual effort by **30%** and improving data pipeline reliability.
- Managed production support for enterprise applications, resolving P1/P2 incidents within strict SLAs and improving system uptime to **99.95%** through proactive monitoring with **Splunk** and **Dynatrace**.
- Created interactive **Power BI dashboards** and **DAX measures** for key performance indicators, enabling stakeholders to gain actionable insights from complex datasets and improving decision-making speed by **20%**.
- Collaborated with cross-functional teams to define requirements, develop features, and support user acceptance testing (UAT) for enterprise business systems, ensuring seamless integration with existing platforms.
- Managed and executed change control processes for system configurations and updates, coordinating UAT and post-go-live support across interconnected systems, resulting in zero critical post-deployment issues.

SKILLS

Programming Languages – Java, Python, C++, Go, JavaScript, Ruby, Node.js

Cloud Platforms – AWS, Azure, GCP

Databases – MongoDB, PostgreSQL, MySQL, Oracle

Frameworks & Libraries – Spring Boot, NestJS

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum, Software Design, Algorithms, Data Structures

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Distributed Data Platform for Real-Time Analytics

- Engineered a scalable data ingestion pipeline using **Python** and **AWS Lambda** to process high-volume transaction data from multiple sources.
- Developed a feature set for a **payments operations dashboard**, enabling real-time monitoring of transaction flows and automated alerting for failures, improving incident response times by **25%**.

- Implemented robust data validation and reconciliation workflows using **SQL** across **PostgreSQL** and **Oracle** databases, ensuring data integrity for financial reporting.

Interactive Business Intelligence Dashboard

- Designed and built a comprehensive **Power BI dashboard** visualizing key operational metrics for a client's enterprise resource planning (ERP) system.
- Developed complex **DAX measures** and optimized data models within Power BI to support interactive data exploration and reporting for business stakeholders.
- Integrated data from disparate sources using **Power Query**, transforming and cleaning data to prepare it for analysis and visualization, reducing data preparation time by **40%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
