PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed **Java Spring Boot** microservices to support new feature development, integrating with existing enterprise systems via **REST APIs**.
- Automated data extraction and reporting processes using **Python** scripts, reducing manual effort for operational teams by **15%** per week.
- Managed production incident response for enterprise applications on **AWS**, ensuring adherence to strict **SLA** targets and maintaining system stability.
- Designed and implemented interactive dashboards and data visualizations in **Power BI**, translating complex datasets into actionable business insights for stakeholders.
- Collaborated with cross-functional teams to gather requirements and support user acceptance testing (**UAT**) for system updates and new module rollouts.
- Optimized **SQL** queries across **PostgreSQL** and **Oracle** databases, improving data retrieval performance for critical financial operations reports by an average of **20%**.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, DAX, Power Query, Tableau

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Methodologies – Agile, Scrum, CI/CD

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Energy Grid Operations Monitoring Dashboard

- Developed a **Power BI** dashboard to visualize real-time energy grid status, integrating data from multiple sensor feeds and operational logs.
- Implemented **DAX** measures to calculate key performance indicators (KPIs) related to grid stability and outage detection, enabling faster response times.

- Designed the data model and ETL processes using **Power Query** to consolidate and clean disparate data sources, ensuring data accuracy for reporting.

Automated Infrastructure Monitoring and Alerting System

- Built a **Python**-based system to aggregate logs and metrics from distributed servers using **Splunk** and **CloudWatch** data.
- Created automated alert generation for critical system events, reducing manual oversight and enabling proactive issue resolution, thereby improving system uptime by 5%.
- Containerized the application using **Docker** for consistent deployment across development and production environments managed via **Jenkins** pipelines.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
