PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Administered and supported **Microsoft 365 environments**, including Exchange Online, SharePoint, and Teams, ensuring 99.9% service availability for enterprise users.
- Managed endpoints and performed routine **security and backup checks** across a fleet of 500+ devices, reducing critical vulnerabilities by **15%**.
- Served as the escalation point for Level 1 analysts, resolving complex technical issues related to **Windows 10/11, Active Directory**, and **Azure AD**.
- Monitored and troubleshoot **server and network infrastructure**, including TCP/IP, DNS, and DHCP, to maintain stable operations and minimize downtime.
- Identified opportunities to improve client systems and **cyber security posture** through proactive monitoring and system hardening initiatives.
- Built and maintained strong client relationships by providing timely and effective technical support, achieving a **95% client satisfaction rating**.

SKILLS

Microsoft 365 Administration – Exchange Online, SharePoint, Teams, Intune, Azure AD

Endpoint Management – Windows 10, Windows 11, Intune

Server & Network Infrastructure – TCP/IP, DNS, DHCP, Server Monitoring

Directory Services – Active Directory, Azure Active Directory

IT Support – Level 2 Service Desk, Incident Resolution, Escalation Management

Cyber Security – Security Checks, Vulnerability Management, System Hardening

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Endpoint Security Enhancement

- Deployed and configured **Microsoft Intune** for centralized endpoint management and security policy enforcement across 300+ company devices.
- Implemented automated security checks and patch management workflows using **PowerShell scripts**, reducing manual effort by **40%**.
- Developed comprehensive documentation and training materials for end-users on new security protocols and device management features.

Service Desk Automation Platform

- Automated ticket routing and initial troubleshooting steps for common issues using a combination of **Python scripting** and **REST API integrations** with IT service management tools.
- Reduced average ticket resolution time for Level 1 support by **20%** through intelligent automation of repetitive tasks.
- Designed and maintained a knowledge base for common technical problems and solutions, accessible to both support staff and end-users.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
