PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained core Java Spring Boot services, implementing new REST APIs and resolving critical production defects that impacted **15%** of daily transaction volume.
- Automated data ingestion and transformation pipelines using Python scripts, reducing manual processing time for batch reports by **40%** and enhancing data accuracy.
- Managed and monitored enterprise applications on **AWS** infrastructure (EC2, S3, CloudWatch), responding to P1/P2 incidents and ensuring adherence to strict SLAs.
- Designed and implemented interactive dashboards and data visualizations in **Power BI**, translating complex datasets into actionable business insights for stakeholders, leading to a **10%** improvement in operational efficiency.
- Collaborated with cross-functional teams to support and integrate with enterprise business systems, including ERP modules, facilitating smoother change-control management and UAT coordination.
- Enhanced the reliability of a financial-services operations dashboard by implementing robust monitoring and alerting mechanisms using **Splunk**, contributing to a **99.95%** uptime.

SKILLS

Mobile Development – Kotlin, Java, Android Architecture Components, MVVM, Coroutines, Compose, Transitions, Animations, Client-side Persistence, DI frameworks.

Backend & API Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI, Microservices.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD.

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Power Query.

Data Visualization & Analytics – Power BI, DAX, Tableau, R, RStudio, Pandas, NumPy, Scikit-learn.

Methodologies & Tools – Agile, Scrum, Kanban, Jira, Confluence, Linux, Shell Scripting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Transaction Monitoring Dashboard

- Developed a comprehensive dashboard using **Power BI** to visualize real-time transaction flows and operational metrics for a financial services client.
- Implemented custom **DAX** measures and data models to aggregate and analyze high-volume transaction data, enabling proactive identification of processing anomalies.

- Integrated data from multiple sources via **Power Query**, ensuring data integrity and providing a unified view for operations teams to manage reconciliation workflows.

Automated Production Incident Reporting System

- Built a Python-based system to automate the aggregation and reporting of production incidents from monitoring tools like **Splunk** and **Dynatrace**.
- Designed REST APIs using **Flask** to ingest alert data and generate daily/weekly summary reports, reducing manual reporting effort by **60%**.
- Deployed the application on **AWS EC2** instances managed via **Jenkins** pipelines, ensuring reliable and timely delivery of incident summaries to engineering leadership.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
