+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed and monitored enterprise applications in production environments, responding to P1/P2 incidents and ensuring adherence to strict SLAs using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate ETL processes and scheduled reporting, enhancing data pipeline efficiency by **30%**.
- Engineered and maintained REST APIs using **Java Spring Boot** for feature development and bug fixes on existing enterprise services.
- Supported and integrated with enterprise business systems, including ERP modules, coordinating change control management and post-go-live support across interconnected systems.
- Designed and implemented interactive dashboards and data visualizations in **Power BI**, translating complex datasets into actionable insights for business stakeholders and reducing report generation time by **40%**.
- Developed and maintained relational database queries and performed schema changes using **SQL** across PostgreSQL, MySQL, and Oracle, ensuring data integrity for critical financial operations.

SKILLS

Programming Languages – Python, Java, SQL, R, DAX
Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn
Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git
Databases – PostgreSQL, MySQL, Oracle
BI & Analytics Tools – Power BI, Tableau, Power Query
Monitoring & Observability – Splunk, Dynatrace
Methodologies & Systems – Agile, Scrum, Jira, Confluence, ERP

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Financial Operations Dashboard Enhancements

- Enhanced a payments operations dashboard for a financial services client by implementing new transaction monitoring alerts, reducing critical incident response times by **25%**.
- Developed Python scripts to automate data ingestion and validation processes for reconciliation workflows, improving data accuracy and reducing manual errors.

- Collaborated with business analysts to gather requirements for new operational reporting features, translating them into technical specifications for the dashboard.

Portfolio Performance Analytics Platform

- Developed a data analytics platform using **Python** and **pandas** to process and analyze investment manager reports, enabling the summarization of key findings for committee review.
- Created interactive dashboards in **Power BI** to visualize portfolio performance metrics, asset allocation, and risk management data, supporting daily risk management activities.
- Engineered data models and wrote complex **DAX** measures to derive key analytics and management reports from diverse investment data sources.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
