PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided day-to-day operational support for a financial-services client's payments operations dashboard, resolving **P1/P2 incidents** and managing SLAs to maintain **99.9% uptime**.
- Developed and maintained operational management information (MI) by producing **KPIs and dashboards**, proactively identifying risks and opportunities for improvement across core banking systems.
- Supported the SBCI Digital Team with development activities, including support for **sprint releases** and coordinating **User Acceptance Testing (UAT)** for new feature deployments.
- Automated data extraction and reporting processes using **Python scripting**, reducing manual effort by **30%** and improving data accuracy for operational MI.
- Managed change-control processes for system configuration updates and coordinated post-go-live support across interconnected enterprise systems, ensuring smooth transitions and minimal disruption.
- Collaborated with business analysts and operations teams to document and map business processes, driving **continuous improvement initiatives** and enhancing operational efficiency by **15%**.

SKILLS

Operations & Support – Incident Management, SLA Management, Production Support, Change Management, UAT Coordination, Quality Assurance, Stakeholder Management, Business Process Governance, Continuous Improvement

Data Analysis & Reporting – KPI Reporting, Dashboards, Trend Analysis, Operational MI, Data Validation, Power BI, Tableau, DAX, Power Query

Programming & Scripting – Python, Java, Spring Boot, SQL, REST APIs, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile/Scrum, Linux, Splunk, Dynatrace, Blueworks, Asana

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Payments Reconciliation & Transaction Monitoring Dashboard

- Developed a **Power BI dashboard** to monitor transaction flows and operational alerts for a financial-services client, providing real-time visibility into payment message processing.
- Automated data ingestion and transformation using **Python and Power Query** for the dashboard, reducing data preparation time by **40%** and enabling faster reporting cycles.

- Collaborated with business stakeholders to define KPIs and data requirements, ensuring the dashboard accurately reflected operational performance and supported **GDPR** compliance.

Enterprise Systems Integration & Support Platform

- Designed and implemented **REST APIs** to facilitate data exchange between an ERP system and other enterprise business platforms, improving data consistency across interconnected systems.
- Provided production support for critical business applications, resolving issues within defined SLAs and conducting root cause analysis for recurring problems, improving system stability by **20%**.
- Managed **Agile/Scrum ceremonies** and utilized **Jira** for defect tracking and feature development, ensuring efficient delivery of system enhancements and bug fixes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
