PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** microservices, implementing new features and resolving production defects to enhance system stability for enterprise applications.
- Automated data extraction and transformation processes using **Python scripts**, reducing manual reporting efforts by an estimated **15 hours** per week.
- Managed incident response for P1/P2 issues on enterprise systems, coordinating with cross-functional teams and ensuring adherence to strict **SLA targets**.
- Constructed interactive **Power BI dashboards**, integrating data from multiple sources and applying **DAX measures** to provide actionable insights for business stakeholders, improving decision-making speed by **20%**.
- Collaborated with business analysts to gather requirements and support User Acceptance Testing (UAT) for new system integrations and configurations, ensuring alignment with operational needs.
- Performed complex **SQL queries** and data validation across **PostgreSQL** and **Oracle** databases to support ad-hoc reporting and data integrity checks for financial operations.

SKILLS

Languages – Java, Python, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle, Data Warehousing

BI & Data Visualization – Power BI, Tableau, RStudio

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Linux

Methodologies – Agile, Scrum, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Operations Transaction Monitoring Dashboard

- Developed a **Java Spring Boot**-based dashboard to monitor real-time financial transaction flows, providing operational alerts for failed or delayed messages.
- Implemented robust error handling and logging mechanisms using **Splunk**, enabling rapid identification and resolution of production issues with a **99.9%** uptime.

- Integrated with backend databases (**PostgreSQL**) to retrieve transaction status and reconciliation data, supporting regulatory compliance and audit trail requirements.

Water Network Analysis and Design Tool

- Designed and built a data processing pipeline using **Python** and **pandas** to ingest and clean hydraulic network data from various sources.
- Developed analytical reports and visualizations in **Power BI** to support feasibility studies and site selection, enabling engineers to assess network performance and identify areas for improvement.
- Applied **SQL** for data warehousing and querying complex datasets, facilitating efficient analysis of water infrastructure project requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
