PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed new backend features and REST APIs using **Python** and **Spring Boot** for an enterprise financial-services dashboard, supporting critical transaction processing workflows.
- Automated data ingestion and reporting tasks with **Python** scripts, reducing manual processing time by **30%** and improving data pipeline reliability.
- Managed production incidents and maintained SLA adherence for enterprise applications through proactive monitoring with **Splunk** and **Dynatrace**, resolving P1/P2 issues within defined timelines.
- Designed and implemented interactive dashboards and data visualisations using **Power BI** and **DAX** for MSc Data Analytics coursework, translating complex datasets into actionable business insights for stakeholders.
- Collaborated with cross-functional teams to support enterprise business systems, coordinating change-control management and UAT for system configuration updates across interconnected platforms.
- Containerized Java Spring Boot applications using **Docker** and deployed to **AWS EC2** instances, enhancing deployment consistency and application scalability.

SKILLS

Backend Development – Python, Java, Spring Boot, REST APIs, Flask, FastAPI

Frontend Development – React, TypeScript, Angular

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, DAX, Power Query

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Analytics & BI – Power BI, Tableau, R, pandas, NumPy, scikit-learn, Statistical Analysis, Machine Learning

Operations & Support – Splunk, Dynatrace, Linux, Shell Scripting, Jira, Confluence, Agile/Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Greenfield Workforce Education Platform

- Developed core backend APIs using **Python** to manage user authentication and assessment data for a new certification platform.
- Implemented frontend components with **React** and **TypeScript**, creating responsive user interfaces for course enrollment and progress tracking.

- Participated in code reviews and employed **AI-assisted development tools** to accelerate feature delivery and maintain code quality.

Financial Transaction Monitoring Dashboard

- Built and maintained a **Python**-based data pipeline to process and aggregate financial transaction messages, ensuring data integrity for monitoring.
- Created detailed operational dashboards using **Power BI**, visualizing transaction flows, error rates, and reconciliation status, reducing manual report generation by **40%**.
- Supported production environment stability for the payments operations dashboard, responding to alerts and resolving issues impacting critical financial workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
