PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the timely and accurate client billing process for multiple legal entities, meeting strict month-end financial reporting deadlines and ensuring correct interpretation of documented fee arrangements across **assigned clients**.
- Executed the collection of fee debtors in accordance with agreed company and client procedures, including the generation of **payment instructions** and banking entries, supporting a **99.8% collection rate** for key accounts.
- Collaborated with New Business, Client Services, and Operations Teams to ensure new and terminated business was captured, correctly accrued, and invoiced within agreed timelines, reducing invoice discrepancies by **15%**.
- Developed and maintained client static data, ensuring accurate reflection of fee arrangements in legal books and supporting **revenue recognition** processes for a portfolio of high-profile clients.
- Resolved **client and business queries** related to fees through timely communication and escalation, documenting resolutions and ensuring adherence to SOX and audit requirements.
- Participated as a **Subject Matter Expert** in fees-related projects and system changes, contributing to the strengthening of internal controls and process improvements for the International Finance Operations team.

SKILLS

Financial Operations – Client Billing, Fee Recognition, Revenue Capture, Month-End Close, Accruals, Fee Debtors Collection, Payment Instructions, Static Data Maintenance, SOX Compliance, Audit Requirements

Data Analysis & BI – Power BI, DAX, Tableau, R, Power Query, Data Modelling, Business Intelligence, Exploratory Data Analysis, KPI Reporting

Programming & Scripting – Python, Java, Spring Boot, SQL, REST APIs, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Change Management, Incident Response

Analytics & Machine Learning – pandas, NumPy, scikit-learn, Statistical Analysis, Regression, Hypothesis Testing

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Fee Reconciliation Dashboard

- Developed an interactive **Power BI dashboard** to monitor and reconcile client fees, consolidating data from multiple sources through **Power Query**.

- Implemented **DAX measures** to calculate key performance indicators such as revenue variance and collection aging, providing stakeholders with real-time insights into financial operations.
- Automated report generation and publication, reducing manual effort by **40%** and enabling faster decision-making for the International Finance Operations team.

Payment Transaction Monitoring System

- Built a **Java Spring Boot** microservice to ingest and process transaction messages from a financial client's payment operations dashboard, enhancing monitoring capabilities.
- Integrated with **PostgreSQL** to store transaction details and status, supporting audit trail requirements and facilitating reconciliation workflows.
- Implemented alerting mechanisms for failed or delayed transactions, contributing to a **99.9%** uptime for critical payment processing monitoring.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
