PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained comprehensive test strategies and performed requirement analysis for financial-services applications, ensuring alignment with business objectives and reducing production defects by **15%**.
- Authored high-quality user test scripts for multiple applications and workflow procedures, focusing on areas requiring automation and contributing to a **20%** increase in testing efficiency.
- Executed functional and User Acceptance Testing (UAT) for payment processing software applications, identifying and documenting defects through rigorous testcase design and execution.
- Designed and executed SQL scripts for database migration testing and validation, supporting seamless data transitions across different application versions and environments.
- Managed defect tracking and resolution workflows using **Jira**, collaborating closely with developers and business analysts to prioritize and address identified issues, leading to a **10%** reduction in critical bug backlog.
- Contributed to the enhancement of QA test processes and application stability in post-production phases, supporting the reduction of production incidents through systematic quality reviews.

SKILLS

Testing Methodologies – Functional Testing, UAT, Regression Testing, Test Strategy Development, Testcase Design, Defect Management, SDLC, Agile, Scrum, Waterfall.

Domain Expertise – Corporate Banking, Payments Processing, Financial Services Applications, Transaction Monitoring, Reconciliation Workflows.

Database & Scripting – SQL, SQL Scripting, PostgreSQL, MySQL, Oracle, Python.

QA Tools & Collaboration – Jira, Confluence, Git.

Application & System Knowledge – REST APIs, Java Spring Boot, .NET, AWS.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Processing & Reconciliation Dashboard

- Developed a comprehensive dashboard for monitoring payment processing workflows and reconciliation activities, enhancing operational visibility for financial services stakeholders.
- Implemented automated alerting mechanisms for failed or stuck payment messages using **Python** scripting and **SQL** queries against PostgreSQL, reducing manual oversight by **30%**.

- Collaborated with business analysts to define requirements and validate data accuracy, ensuring the dashboard provided reliable insights into transaction flows and supported audit trail generation.

Automated Test Suite for Enterprise Application

- Designed and implemented an automated regression test suite for a core enterprise application using **Python**, covering critical business workflows and reducing manual testing effort by **40%**.
- Developed reusable test components and integrated them into a **Jenkins** CI/CD pipeline for continuous testing and faster feedback loops during development cycles.
- Performed extensive functional and UAT testing, meticulously documenting test results and defects in **Jira**, contributing to a **25%** improvement in overall application quality before production deployment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
