PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Acted as a liaison between business, IT, and QA teams, translating complex business requirements into detailed technical specifications for payment processing systems, ensuring **99.9%** requirement clarity.
- Interacted with business stakeholders to gather and document requirements for financial transaction monitoring, translating them into actionable technical tasks for delivery teams.
- Provided content leadership and domain expertise to clients in defining solutions for business requirements within the payments domain, facilitating UAT and issue resolution.
- Analyzed payment-related requirements, overseeing UAT processes and resolving technical issues during development and post-implementation phases, reducing post-launch defects by **15%**.
- Supported enterprise business systems and integrated with ERP modules, managing change control processes and coordinating UAT across interconnected systems for a financial services client.
- Developed Python scripts to automate data extraction and reporting from financial transaction databases, reducing manual processing time by **40%**.

SKILLS

Domain Expertise – Banking Domain, Payments Domain, Low Value Payments, High Value Payments, Financial Transaction Monitoring, Reconciliation Workflows, Regulatory Compliance

Technical Skills – SQL, Oracle Databases, Database Scripting, Microservice Architecture, REST APIs, Java, Spring Boot, Python

Methodologies – Agile, Scrum, Change Management, UAT, Incident Response

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data & Analytics – Power BI, DAX, Power Query, Tableau, R, pandas, NumPy, scikit-learn, Data Warehousing, Business Intelligence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Payments Reconciliation & Transaction Monitoring Dashboard

- Developed and maintained a financial operations dashboard, integrating data from multiple sources to provide real-time monitoring of transaction flows and operational alerts.
- Implemented automated reconciliation workflows using Python and SQL against PostgreSQL databases, identifying and flagging discrepancies with **99.5%** accuracy.

- Collaborated with business analysts and operations teams to define key performance indicators and present interactive visualizations in Power BI, enhancing operational oversight.

Enterprise Systems Integration & Automation

- Designed and implemented REST APIs for seamless integration between an ERP system and a client-facing operational platform, improving data consistency across systems.
- Automated routine data validation and reporting tasks using Python scripts and scheduled SQL queries, reducing manual effort by **30%** and minimizing data entry errors.
- Managed change control processes for system configuration updates and provided post-implementation support, ensuring smooth transitions for interconnected enterprise systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
