PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed incident response for enterprise applications, resolving P1/P2 incidents within **strict SLAs** and reducing critical downtime by **15%**.
- Automated data ingestion and reporting tasks using **Python scripting**, decreasing manual processing time by **30%** for daily operational reports.
- Developed and maintained **Java Spring Boot** REST APIs for cross-system integrations, supporting enhanced data exchange between enterprise platforms.
- Supported a financial-services operations dashboard, monitoring transaction flows and providing operational alerting for failed payment messages, ensuring **99.9% uptime**.
- Executed comprehensive data validation and schema modifications using **SQL** across PostgreSQL and Oracle databases for critical business systems.
- Collaborated with business analysts and operations teams to gather requirements, coordinate UAT, and provide post-go-live support for enterprise software systems.

SKILLS

Support & Operations – Production Support, Incident Management, SLA Management, Technical Diagnostics, Troubleshooting, Customer Support, Case Management, Change Management

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting, REST APIs

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy, scikit-learn

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Operating Systems – Linux

Data Integration – EDI, Messaging Platforms, B2B Integration Essentials

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Transaction Monitoring Dashboard

- Engineered a dashboard application to monitor real-time financial transaction flows, providing **operational alerting** for payment message failures.
- Implemented automated data processing pipelines using **Python** and **SQL** to aggregate and validate transaction data from multiple sources.

- Managed production support for the dashboard, ensuring **high availability** and timely resolution of operational issues within a regulated environment.

Enterprise Systems Integration Platform

- Developed **Java Spring Boot microservices** to facilitate seamless data exchange between disparate enterprise systems, including ERP modules.
- Designed and implemented **REST APIs** for inter-system communication, improving data consistency and reducing integration latency by **20%**.
- Performed comprehensive testing and coordinated User Acceptance Testing (UAT) for system updates, ensuring smooth change management and adoption.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
