PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained data sets for actuarial analysis, performing rigorous **data validation** and **reconciliation**, ensuring 99.9% accuracy for critical financial reporting.
- Supported the development and testing of **actuarial models** and assumptions, contributing to the enhancement of predictive analytics for risk assessment.
- Automated routine reporting tasks using **Python scripting**, reducing manual effort by **40%** and improving data pipeline efficiency for the analytics team.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to strict SLAs using **Splunk** and **Dynatrace** monitoring.
- Designed and implemented REST APIs using **Java Spring Boot** to facilitate cross-system integrations, improving data flow between operational platforms by **20%**.
- Collaborated with cross-functional teams to gather requirements and support User Acceptance Testing (UAT) for system configuration updates, ensuring smooth change management processes.

SKILLS

Actuarial Analysis – Actuarial Modeling, Data Validation, Reconciliation, Risk Assessment

Programming Languages – Python, Java, SQL, R

Data Visualization & BI – Power BI, DAX, Tableau, Power Query

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – MS Excel, Machine Learning, Predictive Modeling, Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Financial Operations Data Dashboard

- Developed interactive **Power BI dashboards** to visualize key performance indicators for financial operations, enabling stakeholders to monitor transaction flows.
- Automated data extraction and transformation processes using **SQL** and **Python**, improving data loading efficiency for the reporting dashboard by **30%**.

- Performed data validation and reconciliation on incoming financial transaction messages to ensure data integrity for operational alerting.

Predictive Analytics Model for Healthcare Claims

- Built and validated predictive models using **Python** (scikit-learn) and **R** to forecast healthcare claims costs based on historical data.
- Developed data sets for model training and testing, incorporating **SQL** queries to extract and aggregate data from various sources.
- Assisted in the development and testing of actuarial models, aligning with established methods and company guidance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
