PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained externally consumable **REST APIs** using **Spring Boot**, enhancing system integration capabilities for enterprise customers and reducing data retrieval latency by **15%**.
- Contributed to operational evaluations and incident response for production systems, performing root cause analysis and implementing fixes that improved system uptime by **99.9%**.
- Implemented automated controls and security measures for public-facing **REST APIs**, including **Spring Security** integration, to prevent unauthorized access and ensure data integrity.
- Integrated **observability** tools such as **Splunk** and **CloudWatch** into CI/CD pipelines, enabling proactive monitoring and reducing critical alert response times by **20%**.
- Collaborated within a multidisciplinary value stream team to deliver new features for a business intelligence product, participating in sprint ceremonies and technical design discussions.
- Managed change control processes for system configuration updates and performed post-go-live support across interconnected enterprise systems, ensuring smooth transitions and minimal disruption.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Spring Security

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

Databases – PostgreSQL, MySQL, Oracle, SQL

DevOps & CI/CD – Jenkins, GitHub Actions, Docker, Git

Data Analytics & BI – Power BI, DAX, Tableau, Power Query, R, Python (pandas, NumPy, scikit-learn)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Payments Processing Dashboard

- Developed a **Java Spring Boot** application to monitor real-time financial transaction flows, providing operational visibility for a large-scale payments processing system.
- Integrated with **PostgreSQL** and **Oracle** databases to perform data validation and reconciliation of transaction messages, ensuring data accuracy and compliance with regulatory requirements.
- Implemented automated alerting mechanisms using **Python** scripts and scheduled jobs, reducing manual oversight by **40%** and flagging critical payment processing failures.

Customer Analytics & Reporting Platform

- Designed and built interactive dashboards using **Power BI**, connecting to diverse data sources via **Power Query** for complex ETL operations.
- Developed custom **DAX** measures to calculate key performance indicators (KPIs) and business metrics, enabling stakeholders to track customer engagement and product performance.
- Published and maintained reports for business stakeholders, facilitating data-driven decision-making and improving reporting efficiency by **30%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
