PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained public-facing **REST APIs** using **Java Spring Boot**, enhancing system integrations for enterprise clients and reducing latency by **18%**.
- Secured **REST end-points** through implementation of robust authentication and authorization mechanisms with **Spring Security**, mitigating unauthorized access incidents.
- Contributed to the operational excellence of production systems by actively participating in **incident response, triage**, and root cause analysis, improving system uptime to **99.95%**.
- Integrated comprehensive **observability** into production environments using tools like **Splunk** and **CloudWatch**, enabling proactive issue detection and faster resolution times.
- Enhanced a mature Business Intelligence product by delivering features for self-serve client **token life cycle management**, improving user experience and reducing support overhead.
- Collaborated within a multidisciplinary value stream team, participating in sprint ceremonies and design discussions to deliver enhancements to existing **BI products** on large-scale historical datasets.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Spring Security, Microservices

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP

DevOps & CI/CD – Jenkins, GitHub Actions, Docker, Git, Linux, Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, Pandas, NumPy

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Payments Operations Dashboard

- Developed and enhanced a financial-services operations dashboard using **Java Spring Boot** and **PostgreSQL**, focusing on transaction monitoring and alerting for failed payment messages.
- Implemented automated data validation and reconciliation workflows within the dashboard, ensuring data integrity and supporting audit trail requirements for a financial client.
- Managed production support, including incident response and SLA adherence, for critical dashboard components, maintaining **99.9%** uptime in a high-volume transaction environment.

Real-time Analytics Dashboard Enhancement

- Extended an existing Business Intelligence product with new features for a large-scale historical dataset, focusing on enhancing **REST API** performance and reliability.
- Implemented automated controls and observability tooling for externally consumable APIs, improving system monitoring and facilitating self-serve client **token management**.
- Collaborated with cross-functional teams to integrate new features, participating in design discussions and ensuring adherence to solid software engineering practices for the analytics dashboard.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
