PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Administered hybrid infrastructure including **Active Directory**, **Entra ID**, and on-premise Exchange, ensuring 99.9% uptime for critical business applications.
- Automated system operations and reporting tasks using **PowerShell** and **Python**, reducing manual intervention by **30%** and improving data accuracy.
- Provided Level 3 support for enterprise applications and critical systems, resolving complex technical issues and delivering root-cause resolutions within defined **SLAs**.
- Managed device lifecycle management via **Microsoft Endpoint Manager (Intune)**, standardizing configurations across a fleet of **1,500+ devices**.
- Led system upgrade and cloud migration projects, successfully transitioning key business applications to modern **Microsoft 365** and **Azure** environments.
- Collaborated with cross-functional teams to support business needs and change initiatives, ensuring seamless integration and minimal disruption during **system deployments**.

SKILLS

Microsoft Cloud & Infrastructure – Microsoft 365, Exchange Online, SharePoint Online, Teams, OneDrive, Intune, Power Platform, Entra ID (Azure AD), Active Directory, ADFS, Group Policy, Azure

Automation & Scripting – PowerShell, Python, Logic Apps

System Administration – On-premise systems, Hybrid infrastructure, Device lifecycle management, System upgrades, Cloud migration

Support & Operations – Level 3 support, Incident management, SLA management, Root-cause analysis, Vendor management, ITIL

Development & Integration – REST APIs, Java Spring Boot, SQL, PostgreSQL, MySQL, Oracle, Docker, Linux, Git, Jenkins

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Financial Transaction Monitoring System

- Developed Python scripts to process and monitor inbound financial transaction messages, identifying and alerting on failures in near real-time.
- Integrated with a Java Spring Boot application to provide operational dashboards, reducing manual reconciliation efforts by **20%**.

- Implemented automated data validation checks against **PostgreSQL** databases to ensure data integrity for high-volume transaction flows.

Business Intelligence Dashboard for Operations KPI

- Designed and deployed interactive dashboards using **Power BI** to visualize key performance indicators for enterprise systems operations.
- Created complex **DAX** measures and data models to aggregate operational metrics from various sources, enabling stakeholders to track system health.
- Automated ETL processes using **Power Query** to ingest and transform data from **SQL** databases and log files, ensuring timely report generation.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
