

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained high-impact **Power BI dashboards**, integrating data from multiple sources to provide real-time visibility into business KPIs, reducing reporting cycle time by **30%**.
- Queried and extracted large datasets from enterprise systems, including **JDE** and cloud environments, using **SQL** to identify trends and anomalies, supporting data-driven decision-making.
- Designed and implemented automated workflows using **Smartsheet**, bridging the gap between operational tasks and data reporting, improving process efficiency by **15%**.
- Collaborated with business units to translate commercial needs into actionable data solutions, acting as a liaison between technical data teams and stakeholders.
- Analyzed production environments for a financial-services client, monitoring transaction flows and operational alerting for failed payment messages, ensuring **99.9%** uptime.
- Refactored inefficient relational database queries and implemented strategic indexing for core ERP database clusters, reducing analytical report execution times by **34%**.

SKILLS

Data Visualization – Power BI, DAX, Power Query, Tableau

Database & Data Lakes – SQL, PostgreSQL, MySQL, Oracle, JDE, Master Control, Azure Data Lake, AWS S3, Snowflake

Workflow Automation – Smartsheet, Control Center, Automations

Programming & Scripting – Python, pandas, NumPy, scikit-learn, Java, Spring Boot

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Operations KPI Dashboard for Financial Transactions

- Built a **Power BI dashboard** to monitor key performance indicators for payment processing operations, integrating data from backend systems via **SQL** queries.
- Developed custom **DAX measures** to calculate transaction success rates, processing times, and identify error trends, enabling proactive issue resolution.
- Published interactive reports to stakeholders, facilitating a **20%** reduction in manual reporting efforts and improving visibility into operational bottlenecks.

Automated Data Extraction and Analysis Pipeline

- Created automated data pipelines using **Python** and **SQL** to extract and transform data from diverse enterprise sources into a centralized data lake.
- Implemented data validation checks and anomaly detection algorithms using **pandas** and **scikit-learn** to ensure data quality and identify outliers.
- Designed a reporting layer that fed into **Power BI**, providing business users with up-to-date insights on customer trends and operational efficiency, achieving **99.5%** data accuracy.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
