PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Elicited and documented business requirements for digital identity solutions, translating needs into detailed user stories and functional specifications for cross-functional teams.
- Analyzed existing customer onboarding processes, identifying opportunities to enhance customer experience and streamline digital identity verification workflows, reducing manual intervention by **30%**.
- Facilitated workshops with stakeholders across business, risk, compliance, and technology departments to ensure alignment on requirements for the EU Digital ID initiative.
- Supported User Acceptance Testing (UAT) for new digital identity features, capturing and incorporating user feedback to refine solution design and ensure alignment with regulatory standards.
- Developed comprehensive process maps and documentation for digital identity management capabilities, maintaining clarity and accuracy throughout the project lifecycle.
- Collaborated with Risk Analysts to assess and mitigate potential risks associated with digital identity processes, ensuring adherence to GDPR and EBA guidelines.

SKILLS

Business Analysis – Requirements Elicitation, Process Analysis, User Stories, Functional Specifications, UAT, Stakeholder Management, Workshop Facilitation

Digital Identity – Identity Verification (ID&V);, EU Digital ID Frameworks, Customer Onboarding, Regulatory Compliance

Tools & Methodologies – Agile Methodologies, Process Mapping Tools, Jira, Confluence

Financial Services – GDPR, EBA Guidelines, Risk Assessment, Compliance

Data & Analytics – Reporting, KPIs, Data Analysis, Power BI, Tableau

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Digital Identity Verification Platform Enhancement

- Defined requirements for enhancing an existing identity verification system, focusing on improving customer journey efficiency and reducing onboarding friction.
- Created detailed process maps and user stories to guide the development of new features, incorporating feedback from business and technology teams.
- Supported UAT cycles, ensuring the refined identity solutions met both business objectives and regulatory compliance requirements.

EU Digital ID Framework Integration Analysis

- Analyzed the integration points and functional requirements for adopting the EU Digital ID framework within existing financial services operations.
- Facilitated cross-functional workshops with Risk, Compliance, and IT teams to map out process flows and identify potential challenges.
- Documented functional specifications and process improvements to ensure seamless integration and adherence to relevant guidelines.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
