PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Administered and supported enterprise applications across Windows, macOS, and Linux environments, ensuring **99.9% uptime** through proactive monitoring and incident response.
- Automated routine IT tasks and complex troubleshooting workflows using **Python scripting**, reducing manual intervention by **30%**.
- Resolved intricate network issues by diagnosing problems with **routers, switches, firewalls, and VPNs**, maintaining optimal network performance and connectivity.
- Managed and troubleshooted hardware and software issues for end-users, coordinating timely **replacements and repairs** through vendor warranty processes.
- Implemented and managed user accounts, group policies, and domain-related configurations within **Active Directory** to enforce security standards.
- Developed and maintained technical documentation, including **knowledge base articles** and standard operating procedures (SOPs), improving team efficiency.

SKILLS

Operating Systems – Windows, macOS, Linux, Active Directory, Group Policies

Network Troubleshooting – DNS, DHCP, TCP/IP, Subnetting, VLANs, Firewalls, Routers, Switches, VPNs

Cloud & Virtualization – AWS, Azure, Google Cloud, VMware, Hyper-V, VirtualBox

Scripting & Automation – PowerShell, Bash, Python

IT Support Tools – Jira, ServiceNow, Zendesk, Splunk, Dynatrace, TeamViewer, AnyDesk, RDP, Nagios, SolarWinds, PRTG

Security & Data Management – Cybersecurity Best Practices, MFA, Encryption, Backup and Disaster Recovery, Basic SQL, Database Backups

Methodologies – ITIL V4, Agile, Scrum, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Support and Automation Platform

- Enhanced production support for critical enterprise applications by implementing **real-time monitoring** using Splunk and Dynatrace, reducing critical incident resolution time by **20%**.
- Developed Python scripts to automate log analysis and data validation processes, significantly decreasing manual effort for daily operational reporting.

- Managed system configurations and coordinated user acceptance testing (UAT) for software updates, ensuring seamless integration and minimal disruption to business operations.

Network Infrastructure Health Monitoring System

- Designed and deployed a network monitoring system using Python and open-source tools to track performance metrics for routers, switches, and firewalls, identifying and rectifying **15%** of potential network bottlenecks proactively.
- Configured and maintained **Linux servers** hosting monitoring services and analyzed system logs to diagnose performance issues, ensuring high availability of network infrastructure.
- Collaborated with cross-functional teams to document network topology and troubleshooting procedures, creating a centralized knowledge base for faster issue resolution.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
