PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and enhanced complex datasets to identify underlying drivers of performance for a commercial loan portfolio, improving reporting accuracy by **15%**.
- Managed and executed special projects focused on process enhancements and automation within the financial services domain, reducing manual intervention by **30%**.
- Developed and delivered cross-platform data compilations and reports to internal and external stakeholders, ensuring adherence to multiple **SLAs**.
- Collaborated with cross-functional teams to drive process improvements and maintain the highest service levels across loan servicing and asset management functions.
- Implemented automation solutions using **Python** scripting to streamline data pipelines and scheduled reporting, saving an estimated **10 hours** of manual work weekly.
- Supported production environments with strict **SLAs** and audit trails, ensuring regulatory and GDPR awareness for financial operations data.

SKILLS

Data Analysis & Science – Data Analytics, Data Science, Complex Datasets, Performance Drivers, Statistical Analysis, Regression, Hypothesis Testing, Exploratory Data Analysis, A/B Testing, Time-Series Analysis, Machine Learning Fundamentals.

Programming & Scripting – SQL, Python, R, pandas, NumPy, scikit-learn.

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence.

Automation & Low-Code – Microsoft Power Automate, Microsoft Power Apps, Microsoft Fabric (Data Engineering, Data Warehousing, Analytics).

Database & Data Warehousing – Database Design, Database Maintenance, SQL (PostgreSQL, MySQL, Oracle), Data Warehousing.

Financial Services Operations – Servicing, Cash Management, Debt Service Calculation, Billing Letters, Compliance Certificates, Covenant Adherence, Property Monitoring Reports, Banking Administration, Treasury, Cash Movements, Loan Services, Asset Management.

Cloud & Development Tools – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins, Jira, Confluence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Services Operations Dashboard

- Developed a comprehensive dashboard using **Power BI** to monitor key performance indicators for financial operations, providing real-time insights into transaction flows.
- Automated data ingestion and transformation processes using **Python** and **Power Query**, reducing data preparation time by **40%** and improving data consistency.
- Integrated with multiple data sources via SQL, enabling detailed analysis of reconciliation workflows and identifying discrepancies for resolution.

Process Automation for Loan Servicing

- Designed and implemented automated workflows using **Microsoft Power Automate** to manage billing letter generation and compliance certificate reviews.
- Collaborated with business analysts to define requirements and map existing processes, ensuring seamless integration with existing systems and reducing manual data entry by **25%**.
- Created interactive reports in **Power BI** to visualize the impact of automation on processing times and resource allocation.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
