

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Python** scripts for automating ETL processes, reducing manual data handling by **40%** and improving data pipeline reliability.
- Designed and implemented **Java Spring Boot** microservices to support new user-facing features, enhancing application responsiveness by **15%**.
- Managed production support for enterprise applications on **AWS** (EC2, S3, Lambda), resolving P1/P2 incidents within defined SLAs and maintaining **99.95%** uptime.
- Constructed scalable **ML pipelines** for data processing and model training on large datasets, enabling faster iteration cycles for growth initiatives.
- Collaborated with cross-functional teams to translate business requirements into technical solutions, facilitating the integration of new **ML models** for personalization.
- Analyzed user behavior data using **SQL** and **Spark** to extract actionable insights, informing strategic decisions for user acquisition and retention campaigns.

SKILLS

ML Engineering – Machine Learning Models, ML Pipelines, Model Training, Model Deployment, Recommendation Systems, User Modeling, Personalization Algorithms, PyTorch, Scikit-learn, Statistical Analysis, A/B Testing

Programming – Python, Java, SQL

Backend Development – Spring Boot, REST APIs, Microservices

Cloud & DevOps – AWS, Docker, Kubernetes, Jenkins, Git

Data Processing & Analysis – Spark, Hadoop, Pandas, NumPy, DAX, Power Query

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

BI & Visualization – Power BI, Tableau, R/RStudio

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Personalized Content Recommendation Engine

- Developed an **ML pipeline** using **Python** and **PyTorch** to process user interaction data and train a recommendation model for personalized content suggestions.
- Designed and implemented **REST APIs** with **Spring Boot** to serve model predictions, integrating with the main application to enhance user engagement by **12%**.

- Conducted **A/B tests** to evaluate the performance of different recommendation algorithms, analyzing results with **SQL** and **Power BI** to guide further optimization.

Scalable User Engagement Analytics Dashboard

- Built an **ETL process** using **Python** and **SQL** to aggregate user activity data from multiple sources into a centralized data warehouse.
- Created interactive dashboards in **Power BI** with complex **DAX** measures to visualize key growth metrics, providing stakeholders with actionable insights into user acquisition and retention trends.
- Deployed the dashboard on a cloud platform, ensuring secure access and data refresh schedules, supporting data-driven decision-making for product teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
