PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Provided technical guidance and system selection advice for **renewable energy systems**, directly supporting sales team proposals and customer consultations, resulting in a **15% increase** in technically sound project bids.
- Managed inbound technical calls and pre-sales enquiries, acting as a primary technical point of contact for installers and consultants, resolving an average of **10-12 queries daily** with a focus on clarity and accuracy.
- Assisted in developing technically accurate quotations and system proposals by reviewing project drawings and specifications, ensuring suitability and compliance for bespoke heating and renewable energy system designs.
- Developed and maintained **technical support documentation** and user guides for internal teams and external stakeholders, improving onboarding efficiency for new installers by an estimated **20%**.
- Collaborated with internal departments including service, commissioning, and distribution to address post-sales technical queries and ensure seamless system performance, reducing escalation rates by **10%**.
- Supported the design and application of **Viessmann product range**, translating complex technical specifications into actionable advice for customers and contractors.

SKILLS

Technical Support – System Selection, Design Assistance, Technical Guidance, Quotations, Specifications, System Proposals, Pre-Sales Support, Post-Sales Support

Engineering Domains – Heating Systems, Ventilation Systems, Renewable Energy Systems, Building Services Engineering, Mechanical Engineering

Customer Interaction – Technical Calls, Customer Communication, Installer Support, Consultant Liaison, Professional Manner, Problem Solving

Documentation & Training – Technical Support Material, Product Training, System Training, User Guides

Core Technologies – Java Spring Boot, Python, SQL, AWS, Linux, Git, Jenkins, Jira, Confluence, Docker

Data & Analytics – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, Data Modelling, ETL

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Renewable Energy System Design Assistant

- Developed a Python-based tool to assist in the selection and configuration of components for solar thermal and heat pump systems, integrating product datasheets and performance metrics.
- Created interactive dashboards using **Power BI** to visualize system performance data and compliance checks, enabling sales teams to present optimized solutions to clients.

- Documented best practices for system integration and troubleshooting, forming the basis for a new internal knowledge base to support technical queries.

Technical Documentation Platform for Building Services

- Designed and implemented a centralized documentation platform using Confluence to host technical specifications, installation guides, and troubleshooting procedures for heating and ventilation products.
- Authored detailed guides on **system compliance** and regulatory requirements, ensuring accurate information dissemination to installers and consultants.
- Collaborated with product engineers to gather technical details and translate them into user-friendly documentation, reducing support ticket volume related to common installation queries by **18%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
