PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Responded to P1/P2 incidents for enterprise applications, performing root cause analysis and implementing fixes to meet **99.9% SLA** adherence.
- Automated data ingestion and reporting processes using **Python scripts**, reducing manual effort by **30%** and improving data timeliness.
- Managed **Jira tickets** and performed defect tracking within **Agile/Scrum** frameworks, facilitating timely resolution of software issues.
- Developed and maintained **Java Spring Boot REST APIs** for core services, enhancing system functionality and supporting cross-team integrations.
- Configured and managed **AWS EC2 instances** and **S3 buckets** for application deployment and data storage, ensuring **high availability** and scalability.
- Collaborated with business analysts and operations teams to gather requirements and support User Acceptance Testing (UAT) for system enhancements.

SKILLS

Hardware & Systems – Desktop, Kiosk, Handheld Scanners, Label Printers, RF Guns, Wearable Tech, Servers, Network Equipment, Cabling, Switch Ports

Networking – LAN, Wi-Fi, Physical Connectivity, Troubleshooting

Operating Systems – Windows, Linux

Software & Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Git, Jenkins, Docker

Device Support – Zebra Devices (Android-based)

WMS/WCS – Warehouse Management Systems, Warehouse Control Systems

Support & Operations – Incident Response, Ticket Management, Escalation, First Line Support, Documentation, Security Standards

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Depot Operations Hardware Monitoring Dashboard

- Developed a **Python**-based system to monitor the health and status of depot hardware including handheld scanners and label printers, integrating with **Linux** systems.
- Implemented real-time data collection for hardware diagnostics and performance metrics, feeding into a centralized dashboard for proactive issue identification.

- Created automated alerts for hardware failures and maintenance needs, reducing downtime by approximately **15%**.

WMS Access Control Automation

- Designed and implemented an automated workflow using **Python** and **SQL** to manage user access (granting, modifying, revoking) for a Warehouse Management System.
- Integrated with backend databases (**PostgreSQL**) to enforce security policies and maintain accurate audit trails for user permissions.
- Reduced manual access provisioning time by **40%** and improved compliance with security standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
