PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved over **150 user-reported incidents** per month related to operating systems, Microsoft 365 applications, and enterprise software through a dedicated **ITSM ticketing platform**.
- Managed user accounts and permissions across **Active Directory** and various email platforms, ensuring secure and efficient access for **500+ employees**.
- Installed, configured, and updated software across a fleet of **200+ desktops and laptops**, maintaining up-to-date antivirus and encryption.
- Supported end-users remotely, diagnosing and resolving hardware and software issues, improving issue resolution time by **20%**.
- Prepared and deployed new equipment, including **imaging devices**, asset tagging, and pre-installation of required software.
- Maintained comprehensive **technical documentation** for IT procedures and user guides, enhancing knowledge sharing within the support team.

SKILLS

Operating Systems – Windows 11, Linux

Productivity Suites – Microsoft 365, Teams, OneDrive

IT Support Tools – ITSM Ticketing Systems, Active Directory, Remote Management Tools, MDM

Hardware & Devices – Desktop Support, Laptop Support, Mobile Device Support

Software Management – Software Installation, Configuration, Updates, Imaging, Asset Tagging

Troubleshooting & Analysis – Problem-Solving, Analytical Skills, Incident Management

Communication & Documentation – User Support, Technical Documentation, Customer First Approach

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Internal IT Support Dashboard

- Developed an internal dashboard using **Power BI** to visualize key support metrics, including ticket volume, resolution times, and common issue categories.
- Integrated data from the **ITSM ticketing system** and asset management tools to provide real-time insights into IT infrastructure health.

- Automated report generation for weekly IT performance reviews, reducing manual effort by **40%** and improving data accuracy.

Enterprise Application Deployment Automation

- Automated the installation and configuration of **enterprise applications** on new employee workstations using Python scripting and **Docker** containerization basics.
- Managed software deployment pipelines through **Jenkins**, ensuring consistent and reliable application versions across the user base.
- Collaborated with cross-functional teams to define deployment requirements and troubleshoot integration issues, reducing deployment errors by **15%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
