PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed project timelines and deliverables for medium to large-scale built infrastructure projects, ensuring adherence to budgets and quality standards.
- Oversaw structural analysis and modelling for complex infrastructure designs, contributing to high-quality technical output and client satisfaction.
- Mentored and supported junior engineers and technicians in their technical development and project contributions, fostering team growth.
- Collaborated with clients, architects, and contractors to define project scope, resolve technical challenges, and ensure successful project outcomes.
- Carried out site visits to monitor construction progress on built infrastructure projects, identifying and resolving technical issues in real-time.
- Developed and implemented automated reporting solutions using **Python** and **SQL**, reducing manual data compilation time by **30%** for project status updates.

SKILLS

Engineering – Civil Engineering, Structural Engineering, Built Infrastructure, Site Visits, Technical Issues Resolution.

Project Management – Project Timelines, Budget Management, Deliverables, Client Collaboration, Contractor Management.

Analysis & Modelling – Structural Analysis, Structural Modelling, AutoCAD, Revit, BIM.

Team Leadership – Mentoring, Junior Staff Support, Team Development, Collaboration.

Software & Tools – MS Office Suite, Python, SQL, PostgreSQL, Oracle, MySQL, Linux.

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Urban Infrastructure Development Platform

- Designed and modelled structural components for a large-scale urban development project, ensuring compliance with building codes and safety regulations.
- Managed project documentation and technical specifications using **Confluence** and **Jira**, facilitating clear communication across cross-functional teams.

- Automated data validation processes for structural integrity reports using **Python** scripts, improving data accuracy and reducing review cycles by **15%**.

Enterprise Resource Planning System Integration

- Supported and integrated enterprise business systems, including ERP modules, with core operational platforms for a financial-services client.
- Developed REST APIs for cross-system data flow between PostgreSQL and Oracle databases, enhancing data synchronization for critical business processes.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for new feature rollouts.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
