PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Architected and developed complex integration solutions using the **Guidewire Integration Framework**, supporting critical business workflows for enterprise clients.
- Engineered and delivered custom integration components using the **Gosu programming language**, ensuring seamless data exchange between disparate enterprise systems.
- Provided senior technical guidance and mentorship to a team of developers on the Guidewire platform, improving overall code quality and adherence to best practices by **15%**.
- Resolved high-stakes enterprise software issues by conducting thorough root cause analysis and implementing robust fixes within strict SLAs, reducing critical incident recurrence by **30%**.
- Designed and implemented technical solutions translating complex business requirements into actionable development plans, aligning with overarching system architecture objectives.
- Managed multiple integration project lifecycles, providing consistent progress updates and technical milestone reporting to clients and internal stakeholders.

SKILLS

Core Technologies – Gosu, Guidewire InsuranceSuite, Guidewire Integration Framework

Programming Languages – Java, Python, SQL, Gosu

Cloud & DevOps – AWS, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence

Analytics & BI – Power BI, Tableau, DAX, Power Query

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Insurance Claims Processing Integration Platform

- Developed key integration modules using **Gosu** and the **Guidewire Integration Framework** to automate claims data flow between policy administration and claims management systems.
- Designed and implemented robust error handling and reconciliation mechanisms, ensuring data integrity and reducing processing discrepancies by **20%**.
- Collaborated with business analysts to define integration requirements, translating functional needs into technical specifications for a high-volume insurance client.

Enterprise Operations Dashboard & Automation Suite

- Built a comprehensive **Power BI** dashboard to visualize key operational metrics and transaction statuses for a financial services client's payments platform.
- Automated report generation and data validation processes using **Python** scripts, reducing manual effort by **40%** and improving data accuracy.
- Managed CI/CD pipelines via **Jenkins** for deployment of backend Java Spring Boot services and integration components.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
