

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved critical bugs and CVEs in Red Hat OpenShift AI maintenance streams, ensuring product stability for enterprise customers by implementing backported fixes.
- Developed and executed automated test plans for new features and bug fixes, integrating them into CI workflows to maintain high quality standards for patch delivery.
- Collaborated with global developer and QE teams to diagnose root causes of failures in complex distributed systems, leading to a **15% reduction** in critical incident resolution time.
- Contributed to the patch review process for Red Hat OpenShift AI, performing code analysis and validation to ensure compliance with release requirements.
- Automated routine operational tasks using **Python scripting**, reducing manual effort for patch deployment and testing by **20%**.
- Supported enterprise business systems by managing change control processes for system configuration updates and coordinating User Acceptance Testing (UAT) across interconnected platforms.

SKILLS

Languages – Python, Go, Java, SQL, R

Cloud Native & Containerization – Kubernetes, OpenShift, Docker, AWS (EC2, S3, Lambda, CloudWatch)

CI/CD & DevOps – Jenkins, GitHub Actions, Git, CI/CD, Automated Testing, Test Automation, PyTest, Cypress

Backend & APIs – Spring Boot, REST APIs, Microservices

Operating Systems & Scripting – Linux, Shell Scripting

Data & Analytics – Power BI, DAX, Power Query, Tableau, pandas, NumPy, scikit-learn, Data Warehousing

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

OpenShift AI Maintenance & Reliability Platform

- Developed automated backporting tools using **Python** to apply security patches and bug fixes to extended life streams of the OpenShift AI platform.
- Implemented robust test suites with **PyTest**, integrating into **Jenkins** pipelines to ensure the quality and stability of delivered patches, reducing regression defects by **18%**.

- Collaborated with QE teams to diagnose and resolve complex issues within the OpenShift AI ecosystem, enhancing overall product reliability.

Enterprise Systems Integration & Automation

- Engineered **REST APIs** using **Spring Boot** to facilitate data flow and integration between core ERP modules and a payments operations dashboard.
- Automated data validation and reconciliation workflows with **Python** and **SQL** (PostgreSQL), improving data accuracy and reducing manual processing time by **25%**.
- Managed change control and post-go-live support for critical system updates, ensuring seamless operation of interconnected enterprise business systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
