PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and maintained Azure infrastructure across multiple environments, ensuring high availability and performance for enterprise applications.
- Designed and implemented infrastructure using **Terraform**, enabling repeatable and automated deployments of cloud resources and reducing manual configuration errors by **40%**.
- Developed automation scripts using **PowerShell** and **Azure CLI** to streamline routine operational tasks, cutting down incident resolution time by an average of **15%**.
- Monitored system performance, availability, and security using **Azure Monitor** and integrated tools, proactively identifying and resolving complex incidents to meet strict SLAs.
- Supported and configured identity services including **Entra ID** and **MFA**, enhancing security posture and user access management for the organization.
- Contributed to ITIL processes for incident, problem, and change management, ensuring adherence to best practices and maintaining robust operational controls.

SKILLS

Cloud Platforms – Azure, AWS

Infrastructure as Code – Terraform, Bicep

Scripting & Automation – PowerShell, Azure CLI, Python

CI/CD – Azure DevOps, Jenkins, GitHub Actions

Security & Identity – Entra ID, MFA, Conditional Access

Monitoring & Observability – Azure Monitor, Splunk, Dynatrace

Operations & Methodologies – ITIL, Incident Management, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Azure Resource Deployment Pipeline

- Developed a CI/CD pipeline using **Azure DevOps** to automate the deployment of Azure resources defined in **Terraform** configurations.
- Implemented state management for Terraform within an **Azure Storage Account**, ensuring consistency and collaboration across the engineering team.

- Integrated automated security scanning and compliance checks into the pipeline, reducing misconfigurations by **25%** before production deployment.

Enterprise Monitoring and Alerting Solution

- Configured and managed **Azure Monitor** for comprehensive logging and performance metrics across Azure compute and networking services.
- Built custom alerts and diagnostic settings using **Azure CLI** to proactively identify and notify stakeholders of potential issues within the cloud environment.
- Integrated alert data with **Splunk** for advanced analysis and historical trend reporting, improving root cause analysis for critical incidents.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
