+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **CI/CD pipelines** using **GitHub Actions**, reducing average deployment time by **40%** for enterprise applications.
- Managed and scaled cloud infrastructure on **AWS** using **Terraform**, deploying and maintaining services like **EKS, EC2, and S3** to support high-availability requirements.
- Automated operational tasks and data processing workflows with **Python** scripting, improving efficiency in system monitoring and reporting by **30%**.
- Collaborated with development and QA teams to integrate security best practices into the software delivery lifecycle, ensuring **secure and scalable solutions**.
- Monitored system performance and availability using **Splunk** and **CloudWatch**, troubleshooting and resolving production incidents to maintain **99.9% uptime**.
- Developed and maintained containerized applications on **Kubernetes**, ensuring efficient resource utilization and seamless deployments across multiple environments.

SKILLS

Cloud Platform – AWS (EKS, EC2, S3, IAM, RDS, Lambda), Docker

Infrastructure as Code – Terraform

Container Orchestration – Kubernetes

CI/CD Tools – GitHub Actions, Jenkins, Git

Scripting Languages – Python, Bash

Monitoring & Observability – Splunk, CloudWatch, Dynatrace

Databases – PostgreSQL, MySQL, Oracle

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Infrastructure Deployment Pipeline

- Built an automated pipeline using **Terraform** and **GitHub Actions** to provision and manage **AWS** infrastructure, including **EKS** clusters and supporting services.
- Implemented **Bash** and **Python** scripts for pre-deployment checks and post-deployment validation, ensuring infrastructure integrity and configuration consistency.

- Achieved a **50% reduction** in manual deployment efforts and improved rollback success rates by **25%** through robust automation.

Containerized Application Orchestration

- Deployed and managed microservices applications on **Kubernetes**, configuring deployments, services, and ingress controllers for optimal performance and scalability.
- Integrated **Splunk and CloudWatch** for comprehensive logging and monitoring of containerized workloads, enabling proactive issue detection and faster troubleshooting.
- Developed **Dockerfiles** and optimized container images to reduce build times by **15%** and improve runtime efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
