PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained scalable web applications using **.NET (C#)** and **React**, delivering new features ahead of schedule.
- Designed and implemented responsive, user-friendly interfaces, improving user engagement by **15%** through intuitive UI/UX design principles.
- Contributed to architectural decisions for new modules, focusing on **microservices architecture** patterns to enhance system scalability and maintainability.
- Collaborated with product managers and designers in an Agile environment, participating in daily stand-ups, sprint planning, and retrospectives to ensure project alignment.
- Wrote clean, well-tested code, achieving over **90% unit test coverage** for critical application components and participating actively in code reviews.
- Integrated backend services via **REST APIs**, connecting front-end components to business logic and data layers, supporting seamless data flow for enterprise applications.

SKILLS

Backend Development – .NET, C#, REST APIs, Microservices Architecture

Frontend Development – React, UI/UX Design Principles

Databases – SQL

Cloud & DevOps – Microsoft Azure, CI/CD Pipelines

Methodologies – Agile, Scrum, Git

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Scalable E-commerce Platform Backend

- Developed backend services using **.NET Core** and **C#** for a multi-tenant e-commerce platform, handling product catalog management and order processing.
- Implemented **RESTful APIs** to facilitate communication between the frontend (React) and backend services, ensuring efficient data retrieval and manipulation.
- Managed database interactions with **SQL Server**, optimizing queries to support high transaction volumes and ensuring data integrity for over 10,000 products.

Customer Analytics Dashboard

- Built interactive dashboards using **React** and **Power BI** to visualize key customer metrics and sales performance for business stakeholders.
- Integrated data from multiple sources, including transactional databases and marketing platforms, using **Power Query** for ETL processes, reducing data preparation time by **30%**.
- Applied **UI/UX design principles** to create an intuitive and visually appealing interface, enabling users to easily explore data and derive actionable insights.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
