PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the end-to-end resolution of escalated Level Two technical support requests, improving client satisfaction by **15%** through prompt and effective issue remediation.
- Developed automated Python scripts to streamline routine IT environment checks and system updates, reducing manual effort by **30%** and ensuring consistent operational uptime.
- Configured and deployed a fleet of over **50** end-user devices, including laptops, desktops, and printers, ensuring seamless integration with client networks.
- Monitored automated alerts for a portfolio of client systems, responding to and resolving critical incidents to maintain **99.9%** service availability.
- Documented over **100** unique technical solutions and troubleshooting steps, contributing to an internal knowledge base that reduced average ticket resolution time by **10%**.
- Collaborated with cross-functional teams to support client onboarding projects, assisting with system deployments and data migration activities.

SKILLS

Support & Troubleshooting – Level Two Support, Hardware, Software, Network Issues, Incident Management, Client Communication, System Checks, Disaster Recovery Testing, Third-Party Provider Management

System Administration – Linux, Shell Scripting, Cron Jobs, Software Installation, Patching, Updates, Print Device Configuration, IP Management

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Programming & Automation – Python, Java Spring Boot, REST APIs, SQL (PostgreSQL, MySQL, Oracle)

Tools & Methodologies – Jira, Confluence, Git, Jenkins, Helpdesk Systems, Agile/Scrum

Data & Reporting – Power BI, DAX, Power Query, Data Modelling, Tableau, R, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Client IT Environment Monitoring Dashboard

- Developed a dashboard using **Power BI** to visualize key performance indicators for client IT environments, enabling proactive identification of potential issues.
- Integrated data from multiple sources including system logs and performance metrics via **Power Query**, creating a unified view for stakeholders.

- Authored **DAX** measures to calculate uptime, response times, and resource utilization, presenting actionable insights to improve client system stability.

Automated Production Support Workflow Enhancements

- Created automated Python scripts to monitor application logs and system health across multiple enterprise services, reducing manual checks by **40%**.
- Implemented automated data validation and reporting pipelines using **SQL** and **Python** for financial transaction reconciliation workflows.
- Integrated monitoring tools like **Splunk** and **Dynatrace** to trigger automated alerts and data collection for incident response, improving response times by **20%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
