PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Facilitated stakeholder workshops and discovery sessions to elicit and refine business requirements for digital initiatives, translating needs into clear user stories and acceptance criteria.
- Developed comprehensive analysis artefacts, including **process maps** and **data flows**, to support the definition of solution options and guide development teams in a hybrid Agile environment.
- Analyzed **quantitative and qualitative data** to validate business needs, identify operational trends, and provide evidence-based recommendations for continuous improvement, strengthening decision-making.
- Collaborated closely with development and testing teams to ensure the feasibility and clarity of requirements throughout the software delivery lifecycle, supporting UAT planning and defect triage.
- Supported the creation of business cases by identifying benefits, analyzing dependencies, and documenting evidence-based recommendations for technology investments.
- Contributed to change adoption by developing training materials and user guidance, ensuring successful implementation and post-go-live validation of delivered solutions.

SKILLS

Business Analysis – Requirements Engineering, Process Modelling, User Stories, Acceptance Criteria, Business Case Development, Stakeholder Management, Workshop Facilitation, UAT Support, Change Adoption

Agile Methodologies – Scrum, Kanban, Agile Ceremonies, Backlog Prioritization

Data Analysis & Reporting – Data-Driven Analysis, Quantitative Analysis, Qualitative Analysis, Data Flows, Process Maps, KPI Analysis

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker

Tools & Platforms – Jira, Confluence, Power BI, Tableau, Splunk, Dynatrace, Jenkins, Git

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Payments Operations Dashboard Enhancement

- Collaborated with business analysts and operations teams to define requirements for a **payments operations dashboard**, focusing on transaction monitoring and alerting for failed messages.
- Developed and validated **SQL queries** across PostgreSQL and Oracle databases to extract and aggregate transaction data for operational reporting, ensuring data accuracy for reconciliation workflows.
- Supported the implementation of new features and bug fixes for the dashboard using **Java Spring Boot**, improving system stability and reducing critical incident response times by **15%**.

ERP System Integration & Process Improvement

- Analyzed existing ERP module functionalities and integrated them with other enterprise systems via **REST APIs** and direct database connections.
- Documented and mapped complex business processes, identifying bottlenecks and proposing solutions to streamline workflows, contributing to a **10%** reduction in manual data entry.
- Coordinated User Acceptance Testing (UAT) for system configuration updates and post-go-live support, ensuring seamless change management across interconnected platforms.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
