PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and resolved IT helpdesk tickets, acting as the primary point of contact for all user queries and achieving a **95% first-contact resolution rate**.
- Configured, maintained, and supported core business applications, including **ERP and Membership platforms**, ensuring high availability and data integrity for critical operations.
- Assessed, documented, and implemented system configuration changes through a formal **change control process**, reducing deployment errors by **15%**.
- Performed first-line testing of system upgrades and coordinated User Acceptance Testing (UAT) for new features, ensuring seamless deployment to production environments.
- Developed and maintained comprehensive system documentation, including process maps and user guides, improving new user onboarding efficiency by **20%**.
- Collaborated with business stakeholders to gather requirements and analyse needs, contributing to the identification and implementation of system enhancements that increased operational efficiency by **10%**.

SKILLS

Core Business Applications – ERP, Membership Platforms, System Configuration, Change Control, UAT, System Upgrades

IT Support & Operations – IT Helpdesk Management, Incident Resolution, SLA Management, Production Support, Application Support

Data Management & Reporting – Data Integrity, Ad Hoc Reporting, Dashboards, Power BI, Data Standards, GDPR, Data Protection Acts

System Integration & Development – System Integrations, REST APIs, Interconnected Systems, Business Requirements Analysis

Programming & Scripting – Python, Java, SQL, Spring Boot, R, DAX, Power Query

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

ERP System Integration & Reporting Dashboard

- Developed a **Power BI dashboard** to monitor key ERP performance indicators, integrating data from PostgreSQL and Oracle databases.

- Automated data extraction and transformation processes using **Python scripts**, reducing manual reporting effort by **30%**.
- Collaborated with finance and operations teams to define reporting requirements and ensure data accuracy for executive decision-making.

Financial Transactions Monitoring System

- Built a Java Spring Boot application to process and monitor financial transaction messages, ensuring adherence to operational SLAs.
- Implemented **real-time alerting** for failed or delayed transactions, improving system responsiveness and reducing incident resolution time by **25%**.
- Supported production stability through proactive monitoring using **Splunk and Dynatrace**, maintaining **99.9% uptime** for critical financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
