

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **overall UI architecture** for several large workflow components using **TypeScript** and **React**, collaborating with technical leads to define scalable solutions.
- Developed multiple complex **UI components** across individual workflow applications, adhering to best-practice **TypeScript/React development patterns** and improving component reusability by **20%**.
- Mentored and provided technical guidance to **junior engineers** on React-based UI design systems and idiomatic JavaScript/TypeScript library usage, enhancing team productivity.
- Implemented **test-driven development** best practices for UI implementations, increasing code coverage for critical user flows by **35%** and reducing post-deployment defects.
- Contributed to **CI/CD pipelines** for automated testing and deployment of UI applications, reducing manual intervention and deployment times by **15%**.
- Supported and integrated with **enterprise business systems** including ERP modules, ensuring seamless data flows across interconnected systems via **REST APIs** and database integrations.

SKILLS

Frontend Development – React, TypeScript, JavaScript, Redux, UI Architecture, UI Design Systems, MVC

Backend & Integration – REST, GraphQL, RPC, Python, Java, Spring Boot, SQL

Databases – PostgreSQL, MySQL, RDBMS

DevOps & Cloud – Docker, Containerization, CI/CD, Jenkins, Git

Data & Analytics – Power BI, DAX, Power Query, Tableau, Data Modelling

Development Tools – Jira, Confluence, Git, Splunk, Dynatrace

Methodologies – Agile, Scrum, Test-Driven Development (TDD)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Next-Generation Legislative Workflow UI

- Developed core **UI components** for a legislative workflow management tool using **TypeScript** and **React**, focusing on modularity and reusability.
- Integrated with backend services exposing functionality via **REST APIs** to display and manage complex legal content, ensuring real-time data synchronization.

- Implemented state management using **Redux** to handle complex application states and user interactions across multiple workflow modules.

Enterprise Operations Dashboard

- Designed and built interactive **dashboards** using **Power BI** to visualize key operational metrics for enterprise systems, enabling data-driven decision-making.
- Developed **DAX measures** and performed data modeling to create robust reporting capabilities, transforming raw data into actionable business insights.
- Automated data extraction and transformation processes using **Power Query**, reducing manual data preparation time by **40%** and ensuring data accuracy.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
