PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated routine operational tasks by writing **Python scripts**, reducing manual effort by **30%** and improving data pipeline reliability.
- Contributed to the enhancement and maintenance of **CI/CD pipelines** using **Jenkins** and **Git**, ensuring consistent and efficient release processes.
- Supported the management of **Azure cloud infrastructure**, assisting with resource provisioning and health checks under senior engineer guidance.
- Assisted in operating and maintaining **Kubernetes clusters** and supporting services, contributing to application deployment stability.
- Participated in **incident management** processes, joining on-call rotations and contributing to triage and post-incident reviews for production systems.
- Documented technical procedures and runbooks, improving knowledge sharing and onboarding efficiency for new team members.

SKILLS

Cloud Platforms – Microsoft Azure, AWS

Containerization & Orchestration – Kubernetes, AKS, Docker

CI/CD & GitOps – Jenkins, Azure DevOps, Git, Argo CD, Helm charts

Scripting & Programming – Python, Bash, PowerShell, Java, Spring Boot

Infrastructure as Code – Terraform, Terragrunt, Bicep, ARM

Observability – Prometheus, Grafana, Azure Monitor, OpenTelemetry, Splunk, Dynatrace

Databases & Networking – PostgreSQL, MySQL, Oracle, TCP/IP, DNS

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Deployment Pipeline for Microservices

- Developed a **CI/CD pipeline** using **Jenkins** to automate the build, test, and deployment of Java Spring Boot microservices to **AWS EC2** instances.
- Implemented **Docker containers** for consistent application environments across development and production, reducing deployment issues by **40%**.

- Integrated automated security scanning and code quality checks into the pipeline, ensuring adherence to development standards.

Production Monitoring and Alerting Dashboard

- Engineered a **payments operations dashboard** using **Python** and **SQL** to monitor transaction flows and provide real-time alerting for failed payments.
- Configured **Splunk** and **Dynatrace** for comprehensive system monitoring, reducing critical incident response time by **20%** through proactive issue detection.
- Collaborated with business analysts to define key operational metrics and integrate them into the dashboard for enhanced visibility into financial service workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
