

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Architected and developed **shared platform components** for enterprise-scale workloads, ensuring **scalability and reliability** for multiple product teams.
- Designed and implemented **distributed systems** utilizing **microservices and event-driven patterns**, enhancing system resilience for high-volume, multi-tenant environments.
- Owned critical **backend services** from conception through deployment, focusing on code quality, **performance optimization**, and operational excellence, reducing latency by **15%**.
- Collaborated extensively with product engineers and architects to define **platform capabilities** and establish technical standards, improving cross-team alignment by **30%**.
- Drove technical initiatives to enhance developer productivity and **system observability**, integrating **Prometheus and Grafana** for real-time monitoring and alerting.
- Analyzed **system performance and data patterns** across enterprise SaaS applications, identifying optimization opportunities that informed future platform investments and led to a **10%** reduction in resource utilization.

SKILLS

Languages – C#, .NET Core, Python, Java, SQL, R, TypeScript

Cloud & Orchestration – Kubernetes, Azure, AWS, GCP, Docker

Backend Development – Microservices, Event-Driven Architecture, REST APIs, Distributed Systems, API Design

Messaging & Data – Kafka, RabbitMQ, ElasticSearch, PostgreSQL, MySQL, Oracle

Observability & CI/CD – Prometheus, Grafana, Splunk, Dynatrace, Jenkins, Git

Methodologies & Practices – Agile/Scrum, Pair Programming, Code Reviews, Change Management, UAT Support

Domain Experience – Enterprise Identity and Access Management (IAM), SaaS Applications, Financial Services Operations

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise SaaS Platform Infrastructure

- Developed a **core platform service** using **.NET Core and Kubernetes** to manage shared resources for multiple product teams, improving deployment efficiency by **20%**.

- Implemented **event-driven patterns** with **Kafka** for asynchronous communication between microservices, ensuring reliable data flow for enterprise workloads.
- Integrated **Prometheus and Grafana** for comprehensive system monitoring, enabling proactive identification and resolution of performance bottlenecks.

Financial Transaction Monitoring Dashboard

- Built a **payments operations dashboard** using **Java Spring Boot and PostgreSQL**, providing real-time visibility into transaction flows and operational alerts.
- Developed automated **Python scripts** for data validation and reconciliation workflows, reducing manual processing time by **40%**.
- Ensured production environments adhered to strict SLAs and audit trail requirements, supporting **GDPR-aware** data handling for financial services.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
