PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented interactive **Power BI dashboards**, integrating data from multiple sources to provide actionable insights for business stakeholders, enhancing data-driven decision-making by **30%**.
- Owned and enhanced a **centralised data lake** architecture, improving data ingestion and accessibility for reporting and analytics teams.
- Developed and maintained complex **DAX measures** and **Power Query transformations** to ensure data accuracy and consistency across all analytical outputs.
- Acted as a subject matter expert for **data analytics** initiatives, providing guidance on data interpretation and best practices across various business units.
- Automated data validation processes using **Python scripts**, reducing manual effort by **40%** and improving data integrity checks for critical reports.
- Managed production support for enterprise applications, resolving P1/P2 incidents and ensuring adherence to strict SLAs for critical financial operations dashboards, maintaining **99.9% uptime**.

SKILLS

Data Analytics & BI – Power BI, DAX, Power Query, Tableau, Data Warehousing, Business Intelligence, Data Modelling, R, RStudio

Programming & Scripting – Python, pandas, NumPy, scikit-learn, Java, Spring Boot, SQL

Data Architecture & Lakes – Data Lake, Data Architecture, ETL, Data Ingestion

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Enterprise Systems & Support – ERP, REST APIs, Production Support, Incident Response, Change Management, Linux, Splunk, Dynatrace

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Operations Dashboard Enhancement

- Developed a suite of **Power BI dashboards** to visualize key performance indicators for a financial services client's payments operations, enabling real-time monitoring of transaction flows.
- Implemented custom **DAX measures** to calculate critical metrics such as payment success rates and reconciliation discrepancies, providing deeper analytical context.
- Refactored **Power Query scripts** to optimize data extraction and transformation processes, reducing dashboard loading times by **25%**.

Customer Analytics Data Lake

- Designed and contributed to a **centralised data lake** architecture for a retail client, consolidating disparate data sources to support advanced analytics and reporting.
- Developed Python-based ETL pipelines for data ingestion and cleansing, ensuring data quality for downstream analytical models.
- Collaborated with business analysts to define data requirements and build reports that informed marketing campaign strategies, leading to a **15% improvement** in customer engagement.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
