## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Managed daily cash positions and confirmed treasury payments, executing internal funding and derivatives trades to ensure **99.9%** uptime in payment processing.
- Administered vendor details and managed vendor ledger statement reconciliations, resolving business unit and vendor queries to maintain accurate financial records.
- Supported treasury and accounts payable payments, ensuring timely execution and appropriate bank account funding within critical cut-off times, processing over **500** transactions weekly.
- Provided critical financial data and responded to queries on cost allocations and postings from invoices and corporate credit cards, facilitating accurate financial reporting.
- Enhanced payment processes cross-functionally by analysing existing workflows and proposing improvements, reducing manual intervention by **15%**.
- Assisted corporate finance deal teams with third-party and shareholder debt facilities by gathering required documentation and performing initial data validation.

## SKILLS

**Treasury & Payments** – Cash Management, Liquidity Management, Interest Rate Risk Management, Payments Processing, Accounts Payable, Vendor Management, Reconciliation, Statement Reviews, Remittance Advices

**Corporate Finance** – Funding Initiatives, Liability Management, Treasury Risk Management, Fundraising, Derivative Administration

**Financial Systems & Reporting** – Ledger Systems, Finance Systems, Reporting, Data Analysis, Ad Hoc Reporting, Cost Allocation

**Technical Skills** – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Splunk, Dynatrace

**Data Analytics & BI** – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Business Intelligence

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

### **Payments Operations Dashboard Enhancement**

- Developed and deployed enhancements for a financial-services payments operations dashboard using **Java Spring Boot** and **Python**, focusing on transaction monitoring and operational alerting for failed payment messages.

- Implemented robust data validation and reconciliation workflows within the dashboard, improving the accuracy of transaction status reporting by **20%** and reducing manual reconciliation efforts.
- Managed production support activities, including incident response and log analysis using **Splunk** and **Dynatrace**, ensuring high availability and adherence to strict SLAs for critical financial operations.

#### **Automated Cash Flow Reporting System**

- Engineered an automated system using **Python** and **SQL** to aggregate and report on daily cash flows and liquidity positions from multiple bank accounts, reducing manual reporting time by **70%**.
- Integrated with various financial systems via REST APIs to capture transaction data, feeding into a centralized data store for analysis and generating remittance advices.
- Designed and implemented interactive dashboards in **Power BI**, visualizing key treasury metrics and facilitating faster decision-making for cash and liquidity management stakeholders.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
