PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **application support** for enterprise systems, resolving P1/P2 incidents and managing SLAs to maintain **99.9% system uptime** for critical business operations.
- Developed **Python scripts** to automate data pipelines and scheduled reporting, reducing manual processing time by **30%** and improving data accuracy.
- Enhanced **Java Spring Boot** applications by implementing new features and fixing bugs in REST APIs, contributing to a **15%** improvement in system response times.
- Managed **SQL Server** database changes and performed data validation for enterprise systems, ensuring data integrity across interconnected platforms.
- Supported customer implementations and system configurations by performing **technical troubleshooting** and providing guidance on system usage.
- Contributed to software development tasks, including writing code for **.NET** bug fixes and minor enhancements, and assisted with **testing and documentation** for new features.

SKILLS

Development – .NET, Java, Spring Boot, Python, REST APIs

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Support & Operations – Application Support, Incident Management, SLA Management, Production Monitoring, Troubleshooting

Cloud & DevOps – AWS, Docker, Jenkins, Git

BI & Data Analysis – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Tools & Methodologies – Jira, Confluence, Agile, Scrum, DevExpress

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Operations Dashboard

- Developed and maintained a **payments operations dashboard** using **Java Spring Boot** and **PostgreSQL**, focusing on transaction monitoring and operational alerting.
- Implemented **Python ETL scripts** to process and validate inbound financial messages, ensuring data quality for downstream reconciliation workflows.

- Collaborated with business analysts to gather requirements for new dashboard features, enhancing **regulatory awareness** and audit trail capabilities.

System Integration & Automation Platform

- Built **REST APIs** using **.NET** to facilitate cross-system integrations between ERP modules and operational platforms, improving data flow efficiency.
- Automated system configuration updates and deployment processes using **Jenkins pipelines** and **shell scripting**, reducing deployment times by **20%**.
- Provided post-go-live support and coordinated User Acceptance Testing (UAT) for system changes, ensuring smooth transitions for enterprise users.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
