## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Provided **first- and second-level support** to end-users across diverse environments, resolving an average of **15 tickets daily** with a focus on user satisfaction.
- Administered **user accounts, permissions, and access** for core business systems, including **Microsoft 365** and **Active Directory**, ensuring compliance with security policies.
- Supported **SAP Business One (HANA)** users with issue diagnosis and functional assistance, contributing to the stability of the ERP system and reducing user-reported issues by **20%**.
- Assisted in the testing, validation, and rollout of system updates and integrations, ensuring smooth transitions and minimal disruption to operations.
- Monitored **SUSE Linux Enterprise Server** environments, performing routine patching, access control checks, and basic troubleshooting to maintain system reliability.
- Wrote and analysed **SQL / SAP HANA SQL Script queries** and views to support reporting requirements and system analysis, improving data retrieval efficiency by **15%**.

## SKILLS

**Operating Systems** – Windows Server, SUSE Linux Enterprise Server, Linux

**ERP & Databases** – SAP Business One, SAP HANA SQL Script, SQL, PostgreSQL, MySQL, Oracle

**Microsoft Stack** – Microsoft 365, Active Directory, PowerShell

**Networking & Infrastructure** – LAN/WAN, DNS, DHCP, VPN, Firewall Fundamentals, Wi-Fi

**Support & Operations** – IT Support, System Administration, Incident Response, Ticket Management, Change Management, Asset Management

**Scripting & Automation** – Python, Shell Scripting

**Cloud & Virtualization** – AWS (EC2, S3, Lambda, CloudWatch), Docker

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**ERP System Integration & Automation (HCL Technologies)**

- Developed **Python scripts** to automate data extraction and loading between the core ERP and a supplementary financial reporting system, reducing manual data entry time by **30%**.
- Collaborated with business analysts to define requirements for new ERP reports, translating business needs into **SQL queries** and views for enhanced operational visibility.

- Supported the integration of a new inventory management module by performing data validation and cross-system testing across **PostgreSQL** and Oracle databases.

#### **Operational Dashboard for Financial Workflows (HCL Technologies)**

- Built and maintained a **Java Spring Boot**-based dashboard for monitoring financial transaction flows, providing real-time status updates and alerts for failed messages.
- Implemented **REST API** integrations to pull data from various upstream systems, consolidating operational metrics into a unified view for analysis.
- Enhanced system reliability by implementing automated health checks and log analysis using **Splunk**, contributing to a **99.9%** uptime for critical financial operations.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
